MuzikMafia David B. Pruett
2010-05-12 In October 2001, an unlikely gathering of musicians calling itself the MuzikMafia took place at the Pub of Love in Nashville, Tennessee. "We had all been beat up pretty good by the 'industry' and we told ourselves, if nothing else, we might as well be playing muzik," explains Big Kenny of Big and Rich. For the next year and a half, the MuzikMafia performed each week and garnered an ever-growing, dedicated fan base. Five years, several national tours, six Grammy nominations, and eleven million sold albums later, the MuzikMafia now includes a family of artists including founding members Big and Rich, Jon Nicholson, and Cory Gierman along with Gretchen Wilson, Cowboy Troy, James Otto, Shannon Lawson, Damien Horne (Mista D), Two-Foot Fred, Rachel Kice, and

several more in development. This book explores how a set of shared beliefs created a bond that transformed the MuzikMafia into a popular music phenomenon. David B. Pruett examines the artists' coalition from the inside perspective he gained in five years of working with them. Looking at all aspects of the collective, MuzikMafia documents the problems encountered along the ascent, including business difficulties, tensions among members, disagreements with record labels, and miscalculations artists inevitably made before the MuzikMafia unofficially dissolved in 2008. A final section examines hope for the future: the birth of Mafia Nation in 2009.

Slaves of the Passions Mark Schroeder 2007-12-13 Mark Schroeder presents an original theory of reasons for action. This theory is broadly Humean, in holding that reasons for action are instrumental, or explained by desires. Slaves of the Passions will be essential reading for anyone interested

Musical Performance and the Changing City Fabian

Holt 2013-09-02 A contribution to the field of urban music studies, this book presents new interdisciplinary approaches to the study of music in urban social life. It takes musical performance as its key focus, exploring how and why different kinds of performance are evolving in contemporary cities in the interaction among social groups, commercial entrepreneurs, and institutions. From conventional concerts in rock clubs to new genres such as the flash mob, the forms and meanings of musical performance are deeply affected by urban social change and at the same time respond to the changing conditions. Music has taken on complex roles in the post-industrial city where culture and cultural consumption have an unprecedented power in defining publics, policies, and marketing strategies. Further, changes in real estate markets and the penetration of new

media have challenged even fairly modern music cultures. At the same time, new music cultures have emerged, and music has become a driver for cultural events and festivals, channeling the dynamics of a society characterized by the social change, media intensity, and the neoliberal forces of post-industrial urban contexts. The volume brings together scholars from a broad range of disciplines to build a shared understanding of post-industrial contexts in Europe and the United States. Most directly grounded in contemporary developments in music studies and urban studies, its broad interdisciplinary range serves to strengthen the relevance of urban music studies to fields such as anthropology, sociology, urban geography, and beyond. Offering in-depth studies of changing music culture in concert venues, cultural events, and neighborhoods, contributors visit diverse locations such as Barcelona, Berlin, London, New York, and Austin.

Everyone Loves Live Music
Fabian Holt 2021-01-27 For decades, millions of music fans have gathered every summer in parks and fields to hear their favorite bands at festivals such as Lollapalooza, Coachella, and Glastonbury. How did these

and countless other festivals across the globe evolve into glamorous pop culture events, and how are they changing our relationship to music, leisure, and public culture? In *Everyone Loves Live Music*, Fabian Holt looks beyond the marketing hype to show how festivals and other institutions of musical performance have evolved in recent decades, as sites that were once meaningful sources of community and culture are increasingly subsumed by corporate giants. Examining a diverse range of cases across Europe and the United States, Holt upends commonly-held ideas of live music and introduces a pioneering theory of performance institutions. He explores the fascinating history of the club and the festival in San Francisco and New York, as well as a number of European cities. This book also explores the social forces shaping live music as small, independent venues become corporatized and as festivals transform to promote mainstream Anglophone

culture and its consumerist trappings. The book further provides insight into the broader relationship between culture and community in the twenty-first century. An engaging read for fans, industry professionals, and scholars alike, *Everyone Loves Live Music* reveals how our contemporary enthusiasm for live music is more fraught than we would like to think.
