Dysconscious Racism, Afrocentric Praxis, and Education for Human Freedom: Through the Years I Keep on Toiling Joyce E. King 2015-04-10 A dynamic leader and visionary teacher/scholar, Joyce E. King has made important contributions to the knowledge base on preparing teachers for diversity, culturally connected teaching and learning, and inclusive transformative leadership for change, often in creative partnership with communities. Dr. King is internationally recognized for her innovative interdisciplinary scholarship, teaching practice, and leadership. Her concept of "dysconscious racism" continues to influence research and practice in education and sociology in the U.S. and in other countries. This volume weaves together ten of her most influential writings and four invited reflections from prominent scholars on the major themes the work addresses. In the World Library of Educationalists, international scholars themselves compile career-long collections of what they judge to be their finest pieces—extracts from books, key articles, salient research findings, major theoretical and/or practical contributions—so the world can read them in a single manageable volume. Readers will be able to follow the themes and strands of their work and see their contribution to the development of a field.

Encyclopedia of Curriculum Studies Craig Alan Kridel 2010 This two-volume set serves to inform and to introduce terms, events, documents, biographies, and concepts to assist the reader in understanding aspects of this rapidly changing, expansive, and contested field of study. Key features: displays different perspectives by having authors contribute independent essays on the nature and future of curriculum studies; presents a unique and in-depth treatment of the Twenty-Sixth Yearbook of the National Society for the Study of Education (NSSE), a 1927 publication that has taken on legendary dimensions for the field of curriculum studies; contains bibliographic entries which feature specific publications by curriculum leaders that helped to define the field; [and] helps readers to learn unfamiliar terms and concepts, to become more comfortable with specialized phrases, and to understand the many significant and perplexing concepts and questions that characterize the field.

Applied Critical Leadership in Education Lorri J. Santamaria 2013-06-17 This book explores an exciting new critical leadership model arising from critical theory and critical pedagogy traditions, and provides examples of applied critical leadership, ultimately expanding ways to think about current leadership models.

Handbook of Critical Race Theory in Education Marvin Lynn 2021-10-25 This handbook illustrates how education scholars employ Critical Race Theory (CRT) as a framework to bring attention to issues of race and racism in education. It is the first authoritative reference work to provide a truly comprehensive description and analysis of the topic, from the defining conceptual principles of CRT in Law that gave shape to its radical underpinnings to the political and social implications of the field today. It is divided into six sections, covering innovations in educational research, policy and practice in both schools and in higher education, and the increasing interdisciplinary nature of critical race research. New chapters broaden the scope of theoretical lenses to include LatCrit, AsianCrit and Critical Race Feminism, as well as coverage of DisCrit Studies, Research Methods, and other recent updates to the field. This handbook remains the definitive statement on the state of critical race theory in education and on its possibilities for the future.

Arts-Based Teaching and Learning in the Literacy Classroom

Jessica Whitelaw 2019-05-01 This book highlights the unique and co-generative intersections of the arts and literacy that promote critical and socially engaged teaching and learning. Based on a year-long

ethnography with two literacy teachers and their students in an arts-based public high school, this volume makes an argument for arts-based education as the cultivation of a critical aesthetic practice in the literacy classroom. Through rich example and analysis, it shows how, over time, this practice alters the in-school learning space in significant ways by making it more constructivist, more critical, and fundamentally more relational.

Critical Discourses on Teacher Development John Smyth 1995 The central thesis of this book is that reclaiming teaching depends upon reclaiming the language within which dialogue about schooling can occur. The contributors provide both a rationale and some pointers on how this process might proceed; in this respect, this is an important book at a critical period in the history of schools.
