International Handbook of English Language Teaching Jim Cummins 2007-12-31 This two-volume handbook provides a comprehensive examination of policy, practice, research, and theory related to English language teaching (ELT) in international contexts. Nearly 70 chapters highlight the research foundation for the best practices, frameworks for policy decisions, and areas of consensus and controversy in the teaching and development of English as a second and/or additional language for kindergarten through to adult speakers of languages other than English. In doing so it problematizes traditional dichotomies and challenges the very terms that provide the traditional foundations of the field. A wide range of terms has been used to refer to the key players involved in the teaching and learning of the English language and to the enterprise of English language teaching as a whole. At various times and in different contexts, the following labels have been used in countries where English is the dominant language to describe programs, learners, or teachers of English: English as a second language (ESL), English as an additional language (EAL), limited English proficient (LEP), and English language learners (ELL). In contexts where English is not the dominant language, the following terms have been used: English as a foreign language (EFL), English as an international language (EIL), and English as a lingua franca (ELF).

Nelson's Navy in Fiction and Film Sue Parrill 2009-09-14 This book provides summaries and analyses of more than 250 novels and nearly 30 films and examines the extent to which they accurately reflect the history, mores and manners of the period--and the extent to which they reveal the ideas and attitudes of their authors and of the periods in which they were written. Particular emphasis is placed on the nature and importance of the war at sea for the British and on the role of famous naval officers such as Nelson, Pellew, Duncan, Smith and Cochrane in the defeat of Napoleon.
