Dolphins Under My Bed Sandra Clayton 2011-03-15 A

charming, gentle tale about a British couple's decision to follow their dream and sail from the UK to the Med before it's too late. Told from a woman's perspective it is entertainingly written, with lively and humorous anecdotes that will be of interest to sailors and non-sailors alike.

Environmental Information in Instructions for Use of Consumer Products Ari Nissinen 2005-03-11

The European Union has highlighted the issue of environmentally sound use of

products in the context of Integrated Product Policy, IPP. Accordingly, consumers should have easy access to understandable, relevant and credible environmental information. Information about product characteristics is available in different forms and sources, but in many cases, relevant environmental information is not available on the product itself. The study described in this report was initiated in order to produce information on the state of user instructions regarding environmental information. User manuals of passenger cars and refrigerators were focused on, examining the advice which could diminish the harmful environmental effects of the use of these products. Other studied products included such durable products as textiles and furniture as well as such consumables as cleaning chemicals and recyclable paper products. The study raised many ideas about actions that could promote the status and 'eco-development' of

instructions for use.
