Handbook of Research on Improving Engineering Education With the European Project Semester Malheiro, Benedita 2022-03-18
Engineering education aims to prepare engineering undergraduates for their future professional journey where they will be called on to solve challenges affecting individuals,

companies, and society. The European Project Semester (EPS) exposes students to project- and challenge-based learning, paying special attention to international multidisciplinary teamwork, sustainable design, innovative thinking, and project management in order to develop a set of desired professional skills. The Handbook of Research on Improving Engineering Education With the European Project Semester shares the best practices in engineering education through close examination of the EPS. It describes the adopted learning framework, analyzes how it contributes to the development of skills, reports on the types of challenges proposed to teams, and delivers a set of team-project cases from the network of providers. Covering topics such as engineering ethics, project management, and sustainable

behavior, this book is essential to students in engineering, engineers, engineering educators, educational researchers, academic administration and faculty, and academicians.

Fed Up with Lunch: The School Lunch Project Mrs. Q 2011-08-26 When school teacher Mrs. Q forgot her lunch one day, she had no idea she was about to embark on an odyssey to uncover the truth about public school lunches. Shocked by what her students were served, she resolved

to eat school lunch for an entire year, chronicling her experience anonymously on a blog that received thousands of hits daily, and was lauded by such food activists as Mark Bittman, Jamie Oliver, and Marion Nestle. Here, Mrs. Q reveals her identity for the first time in an eye-opening account of school lunches in America. Along the way, she provides invaluable resources for parents and health advocates who wish to help reform school lunch, making this a must-read for anyone concerned about children's health issues.
