Corporate Integrity and Accountability George G. Brenkert 2004-06-30
The ethical and legal scandals at Enron, WorldCom, Tyco and many other businesses in the United States, Europe and Asia have shaken people's confidence in business. *Corporate Integrity and Accountability* seeks to address questions of corporate integrity as they arise for financial reporting, executive compensation, globalization, and business ethics itself. In so doing it asks the following questions: What is the current meaning of corporate integrity? How should we go about analyzing and responding to unethical and corrupt behavior both at home and abroad? What measures can be undertaken by corporations within their own walls to address these problems? What groups and perspectives need to be taken into account with regard to CEO compensation? These are a few of the many topics that the chapters in this book discuss under the heading of corporate integrity and accountability. The chapters are the product of leading business ethicists—both academic and practitioner—in the U.S. and Europe, resulting in the application of

different methodologies, sources, and forms of argument. This gives the reader a sense not only of the complexity of some of the ethical issues business faces, but also the richness of the various resources that are available to address these issues. *Corporate Integrity and Accountability* is ideally suited as a text for courses in the following: business ethics, corporate social responsibility, current ethical issues in business, and corporate citizenship.

Bancassurance N. Genetay 2016-07-27 Banking markets have experienced a general trend towards conglomeration in recent years which has been facilitated by the deregulation of banks' activities. A particular feature of financial conglomeration has been the diversification of banks into insurance activities, and especially life insurance. This book provides a comprehensive analysis of the concept and market characteristics of the bancassurance phenomenon. It also evaluates the impact of banking risks associated with diversification into insurance business.
