On a Global Mission: The Automobiles of General Motors International

Volume 3 Louis F. Fourie

2016-12-27 Volume One traces

the history of Opel and

Vauxhall separately from

inception through to the 1970s

and thereafter collectively to

2015. Special attention is

devoted to examining

innovative engineering features

and the role Opel has taken of

providing global platforms for

GM. Each model is examined

individually and supplemented

by exhaustive supporting

specification tables. The

fascinating history of Saab and

Lotus begins with their humble

beginnings and examines each

model in detail and looks at

why these unusual marques

came under the GM Banner.

Included is a penetrating

review of Saab through to its

unfortunate demise. Volume

Two examines unique models

and variations of Chevrolet and

Buick manufactured in the

Southern Hemisphere and Asia

but never offered in North

America. Daewoo, Wuling and

Baojun are other Asian brands

covered in detail. This volume

concludes with recording the

remarkable early success of

Holden and its continued

independence through to

today. Volume Three covers the

smaller assembly operations

around the world and the

evolution of GM's export

operations. A brief history of

Isuzu, Subaru and Suzuki looks

at the three minority interests

GM held in Asia. The GM North

American model specifications

are the most comprehensive to

be found in a single book.

Global and regional sales

statistics are included. GM

executives and management

from around the globe are

listed with the roles they held.

An index ensures that these

volumes serve as the ideal

reference source on GM.
