Beginning with sections that help students develop simpler pieces of writing-the one-paragraph essay, for example-the book progresses through the five paragraph essay, discussing issues of topic sentences, unity, coherence, support, and layout. Section Two of the book is devoted to forms that deepen students' ability, including fuller treatment of common patterns of development (modes) for five-paragraph essays and essays that go beyond the five paragraph essay-comparison and contrast, cause and effect, classification, and process. An entire part (Part 5) is devoted to the research paper.
