Modelling World Englishes Buschfeld Sarah
Buschfeld 2020-07-09 This book brings together two types of varieties of English that have so far been treated separately: postcolonial and non-postcolonial Englishes. It examines these varieties of English against the backdrop of current World Englishes theory, with a special focus on the extra- and Intra-Territorial Forces (EIF) Model. Bringing together a range of distinguished researchers in the field, each chapter tests the validity of this new model, analyses a different variety of English and assesses it in relation to current models of World Englishes. In doing so, the book ends the long-standing conceptual gap between postcolonial and non-postcolonial Englishes and integrates these in a unified framework of World Englishes. Case studies examine English(es) in England, Namibia, the United Arab Emirates, India, Singapore, the Philippines, South Korea, Japan, Australia, North America, the Bahamans, Trinidad, Tristan da Cunha, St. Helena, Bermuda, and the Falkland Islands, Ireland, Gibraltar and Ghana.

*New Perspectives on English as a European
Lingua Franca* Heiko Motschenbacher
2013-12-15 This volume complements earlier
work on English as a lingua franca (ELF) by
providing an in-depth study of the phenomenon
from a decidedly European perspective.
Distancing itself from more traditional
approaches to the study of English in Europe
(linguistic imperialism and "Euro-English"), the
study is theoretically grounded in more recent
approaches, namely the ELF paradigm and the
postmodernist conceptualisation of "English".
Methodologically speaking, the study analyses
language use in Eurovision Song Contest press
conferences as a community of practice of
European salience. The ethnographically based
analyses focus on various linguistic levels,
thereby producing a comprehensive picture of
European ELF as a discursive formation. Various
qualitative and quantitative methods are used to
shed light on the following aspects: code-choice
practices in ELF talk, participants'
metalinguistic comments on the use of ELF,
complimenting behaviour via ELF and
relativisation patterns. On the basis of this data,
the concluding section advances discussions
revolving around the conceptualisation of ELF in

general, the connection between ELF and Europeanness, and implications for European language policies.
