Theological Libraries and Library Associations in Europe

2022-08-15 During the past 50 years, theological libraries have confronted secularisation and religious pluralism, along with revolutionary technological developments that brought not only significant challenges but also unexpected opportunities to adopt new instruments for the transfer of knowledge through the automation and computerisation of libraries. This book shows how European theological libraries tackled these challenges; how they survived by redefining their task, by participating in the renewal of scholarly librarianship, and by networking internationally. Since 1972, BETH, the Association of European Theological Libraries, has stimulated this process by enabling contacts among a growing number of national

library associations all over Europe.

The Road to Information

Literacy Roisin Gwyer 2012 Information literacy has been identified as a necessary skill for life, work and citizenship - as well as for academic study - for all of us living in today's information society. This international collection brings together practitioner and research papers from all sectors of information work. It includes case studies and good practice guides, including how librarians and information workers can facilitate information literacy from pre-school children to established researchers, digital literacy and information literacy for citizens.

2018-11-05 The series *Studies and Texts in Scepticism* contains monographs, translations, and collected essays exploring scepticism in its dual manifestation as a purely philosophical tradition and as a set of sceptical strategies, concepts, and attitudes in the cultural field - especially in religions, perhaps most notably in Judaism. In such cultural contexts scepticism manifests as a critical attitude towards different dimensions and systems of secular or revealed knowledge and towards religious and political authorities. It is not merely an intellectual or theoretical worldview, but a critical form of life that expresses itself in such diverse phenomena as religion, literature, and society. Further book series of the Maimonides Centre for

Advanced Studies are Jewish Thought, Philosophy, and Religion and the Yearbook of the Maimonides Centre for Advances Studies.

Spaniards and Nazi

Germany Wayne H. Bowen

2000 Only the indecisiveness of Spanish dictator Franco and diplomatic mistakes by the Nazis, argues Bowed (history, Ouachita Baptist U., Arkadelphia, Arkansas) prevented the Nazi supporters in the Spanish fascist party from bringing Spain into World War II on the side of the Axis. Still, he points out, Spaniards helped Germany by serving in its armies, working in its factories, and promoting its ideas to other nations. The study began as a doctoral dissertation for Northwestern University. Annotation copyrighted by Book News Inc., Portland, OR

Strangling Aunty: Perilous Times for the Australian Broadcasting Corporation

Drawing on a wealth of academic research, statistics and interviews with key Australian media people including present and former Australian Broadcasting Corporation staffers, this book explores the transitions of the ABC under various types of organisational re-strategising, governance and political shifts. The book provides the reader with an authoritative narrative as to how the ABC has lost its iconic status in Australian society, and unfolds how the ABC has strayed from its respected public charter which endowed the ABC with a distinctive and important role in informing, educating and entertaining the Australian public. Successive federal government funding cuts have shrunk staffing levels and services while it has pursued a corporatist model that mimics the trappings and practices of commercial media. In that process it has become politicised and trivialised, thereby threatening its demise. The book is a unique and timely contribution at a time of

dwindling interest for the funding of public assets everywhere. There is no other book in the market that addresses the decline of the organisation (the ABC) and analyses the reasons for its demise within an organisational theoretical framework. The book is written for an educated general audience, with academics and media practitioners specifically in mind, and has everyday applications for business organisations operating in the public sector by bringing together important findings of public funding, budgets, management and organisational strategies and evolution.

 dieser Arbeit ist es, die
 Erwartungen sowie die
 Realitätswahrnehmungen von
 Schülern und Lehrern
 hinsichtlich der Frage "Was ist
 guter Unterricht?" durch
 Merkmalsausprägungen,
 welche aus den zehn
 Gütekriterien guten
 Unterrichts nach H. Meyer
 extrahiert wurden, zu
 ergründen und auf
 Priorisierungen zu
 untersuchen. Diese sollen
 miteinander verglichen
 werden, um Parallelen und
 Unterschiede zwischen den
 Sichtweisen von Lehrern und
 Schülern zu bestimmen. Es
 stellt sich anschließend die
 Frage, welche Konsequenzen
 sich durch die jeweiligen
 Konstellationen der
 Sichtweisen ergeben, um dem
 gemeinsamen Ziel von
 Schülern und Lehrern, guten
 Unterricht zu gestalten, näher
 zu kommen. Vergleiche der
 Idealvorstellungen guten
 Unterrichts und ihre

Umsetzung bieten außerdem
 die Möglichkeit,
 Unzufriedenheiten von
 Schülern und Lehrern zu
 eruieren, wenn Unterschiede
 bestehen.

meteorology, climatology, hydrology, botany, zoology, anthropology, art, music, film, culture, sports, as well as the specific and diversely different deserts that one finds in all parts of the world. Trauma, History, Philosophy

György Márkus 2007 In the age of the war on terror and what one critic has called 'disaster capitalism', the topic of trauma has assumed renewed cultural relevance. Trauma, Historicity, Philosophy is a collection of essays by Australian philosophers, psychoanalysts, and cultural theorists on the genealogy, semantics, and relevance of the concept of 'trauma' in the contemporary world. The collection features two essays by Agnes Heller and Gyorgy Markus addressing trauma, and what psychoanalysis' elevation of 'trauma' to cultural centrality

means (and has meant) for modern philosophy and social theory. Other essays address '911', cyber-terrorism, the shoah, political tyranny, the 'end of history', and engage with the thought of Kierkegaard, Schmitt, Hobbes, Derrida, Agamben, Badiou, Zizek, Lacan and Freud.

Italian Colonialism Jacqueline Andall 2005 The essays in this volume explore the ways in which the Italian colonial experience continues to be relevant, despite the extent to which forgetting colonialism became an integral part of Italian culture and national identity.

Jazz Age Barcelona Robert A. Davidson 2009-08-20 Using periodicals and recently rediscovered archival material, Davidson considers the relationship between the political pressures of a brutal class war, the grasp of a repressive dictatorship, and the engagement of the city's young intellectuals with Barcelona's culture and environment.
