The Modern Cook's Year offers more than 250 vegetarian recipes for a year's worth of delicious meals. Acclaimed cookbook author Anna Jones puts vegetables at the center of the table, using simple yet inventive ingredients. Her recipes are influenced by her English roots and by international flavors, spanning from the Mediterranean to Sri Lanka, Japan, and beyond. Attuned to the subtle transitions between seasons, Jones divides the year into six significant moments, suggesting elderflower-dressed fava beans with burrata for the dawn of spring, smoked eggplant flatbread for a warm summer evening, orzo with end-of-summer tomatoes and feta for the early fall, and velvety squash broth with miso and soba to warm you in the winter, among many others.

Enhanced by beautiful color photos, The Modern Cook's Year showcases Jones's uncanny knack for knowing exactly what you want to eat, at any particular moment. "So much wonderful food!" —Yotam Ottolenghi

**A Modern Way to Eat: Over 200 Satisfying, Everyday Vegetarian Recipes (that Will Make You Feel Amazing)** Anna Jones 2019-06-17 A modern vegetarian cookbook packed with quick, healthy and fresh recipes, that fits perfectly with how we want to eat now. How we want to eat is changing. More and more people want to cook without meat a couple of nights a week, or are looking for interesting ideas for dishes for their vegetarian friends (whilst pushing their own vegetarian repertoire beyond a red onion and goat's cheese tart or a mushroom risotto). At the same time we want to eat food that is a little lighter, a little healthier, a little easier on our pockets, but that won't have us chopping mountains of veg or slaving over the stove for hours.

*First Bite* Bee Wilson 2015-12-01 We are not born knowing what to eat; as omnivores it is something we each have to figure out for ourselves. From childhood onward, we learn how big a "portion" is and how sweet is too sweet. We learn to enjoy green vegetables -- or not. But how does this education happen? What are the origins of taste? In *First Bite*, award-winning food writer Bee Wilson draws on the latest research from food psychologists, neuroscientists, and nutritionists to reveal that our food habits are shaped by a whole host of factors: family and culture, memory and gender, hunger and love. Taking the reader on a journey across the globe, Wilson introduces us to people who can only eat foods of a certain color; prisoners of war whose deepest yearning is for Mom's apple pie; a nine year old anosmia sufferer who has no memory of the flavor of her mother's cooking; toddlers who will eat nothing but hotdogs and grilled cheese sandwiches; and researchers and doctors who have pioneered new and effective ways to persuade children to try new vegetables. Wilson examines why the Japanese eat so healthily, whereas the vast majority of teenage boys in Kuwait have a weight problem -- and what these facts can tell Americans about how to eat better. The way we learn to eat holds the key to why food has gone so disastrously wrong for so many people. But Wilson also shows that both adults and children have immense potential for learning new, healthy eating habits. An exploration of the extraordinary and surprising origins of our tastes and

eating habits, *First Bite* also shows us how we can change our palates to lead healthier, happier lives.
