Children of Memory Adrian Tchaikovsky 2023-01-31 The modern classic of space opera that began with Children of Time continues in this extraordinary novel of humanity's battle for survival on a terraformed planet. Earth failed. In a desperate bid to escape, the spaceship Enkidu and its captain, Heorest Holt, carried its precious human cargo to a potential new paradise. Generations later, this fragile colony has managed to survive, eking out a hardy existence. Yet life is tough, and much technological knowledge has been lost. Then strangers appear. They possess unparalleled knowledge and thrilling technology – and they've arrived from another world to help humanity's colonies. But not all is as it seems, and the price of the strangers' help may be the colony itself. Children of Memory by Arthur C. Clarke Award-winning author Adrian Tchaikovsky is a far-reaching space opera spanning generations, species and galaxies.

Our Common Cosmos Zoë Lehmann Imfeld 2018-12-27 This volume collects an international body of voices, as a timely response to a rapidly advancing field of the natural sciences. The contributors explore how the disciplines of theology, earth and space sciences contribute to the debate on constantly expanding ethical challenges, and the prospect of humanity's future. The discussions offered in this volume see the 'community' as central to a sustainable and ethical approach to earth and space sciences, examining the role of theology in this communal approach, but also recognizing theology itself as part of a community of

humanity disciplines. Examining the necessity for interaction between disciplines, this collection draws on voices from biodiversity studies, geology, aesthetics, literature, astrophysics, and others, to illustrate precisely why a constructive and sustainable dialogue is needed within the current scientific climate.

Guns of the Dawn Adrian Tchaikovsky 2015-02-12 Guns of the Dawn is a pacey, gripping fantasy of war and magic, from Arthur C. Clarke Award-winning author, Adrian Tchaikovsky. 'One of the best books I've ever read' – Peter Newman, author of *The Vagrant* The first casualty of war is truth . . . First, Denland's revolutionaries assassinated their king, launching a wave of bloodshed after generations of peace. Next they clashed with Lascanne, their royalist neighbour, pitching war-machines against warlocks in a fiercely fought conflict. Genteel Emily Marshwic watched as the hostilities stole her family's young men. But then came the call for yet more Lascanne soldiers in a ravaged kingdom with none left to give. Emily must join the ranks of conscripted women and march toward the front lines. With barely enough training to hold a musket, Emily braves the savage reality of warfare. But she begins to doubt her country's cause, and those doubts become critical. For her choices will determine her own future and that of two nations locked in battle. 'An engrossing story, beautifully told' – SFX 'Moving, gripping and wonderfully paced' – The Bookbag

Children of Strife: Children of Time Book 4 Adrian Tchaikovsky 2026-03-17 Long ago, towards the end of humanity's first expansion into space, the vast majority of worlds were terraformed under the auspices of irascible genius Avrana Kern. But Kern had rivals, and a team of self-proclaimed innovators took one world from her remit and devoted themselves to reshaping it into a paradise in their own image, using new and unpredictable methods. Later, after the fall of their society and long generations in the wilderness, the new and desperate return of humanity

into space is focused on ark ships heading to all the worlds they believe - or hope - their ancestors made into welcoming homes for human life. Whilst most head for the planets that Kern's people worked on, ancient records show another pristine world, and an invitation from the ancients to inhabit it. Later still, a ship with a crew of maverick humans, spiders and a spectacularly punchy mantis shrimp captain named Cato rediscover the world, and the ark. On their ship, the human Alis wakes up from a nightmare of conflicted realities to discover that she, Cato and the ship's version of Kern are the only ones left on board. Everyone else went to explore the ark and the planet, and now all contact has been lost. Traumatized Alis and Belligerent Cato must follow in the footsteps of their crewmates to discover the full magnitude of what was done to this world by its terraformers, and to rescue the one surviving member of their crew from the surface - before she becomes a greater threat than anything the world itself can produce.

The Doors of Eden Adrian Tchaikovsky 2020-09-22 "Four years ago, two girls went looking for monsters on Bodmin Moor. Only one came back... Lee thought she'd lost Mal, but now she's miraculously returned.

But what happened that day on the moors? And where has she been all this time? Mal's reappearance hasn't gone unnoticed by MI5 officers either, and Lee isn't the only one with questions. Julian Sabreur is investigating an attack on top physicist Kay Amal Khan. This leads Julian to clash with agents of an unknown power--and they may or may not be human. His only clue is grainy footage, showing a woman who supposedly died on Bodmin Moor. Dr Khan's research was theoretical; then she found cracks between our world and parallel Earths. Now these cracks are widening, revealing extraordinary creatures. And as the doors crash open, anything could come through."--

Contact with Extraterrestrial Intelligence and Human Law Michael Bohlander 2023-08-07 It is statistically unlikely that humans are the only intelligent species in the universe. Nothing about the others will be known until contact is made beyond a radio signal from space that merely tells us they existed when it was sent. That contact may occur tomorrow, in a hundred years, or never. If it does it will be a high-risk

scenario for humanity. It may be peaceful or hostile. Relying on alien altruism and benign intentions is wishful thinking. We need to begin identifying as a planetary species, and develop a global consensus on how to respond in either scenario.

Eyes of the Void Adrian Tchaikovsky 2022-05-03 The Arthur C. Clarke award-winning author of *Children of Time* brings us the second novel in an extraordinary space opera trilogy about humanity on the brink of extinction, and how one man's discovery will save or destroy us all. After eighty years of fragile peace, the Architects are back, wreaking havoc as they consume entire planets. In the past, Originator artefacts - vestiges of a long-vanished civilization - could save a world from annihilation. This time, the Architects have discovered a way to circumvent these

protective relics. Suddenly, no planet is safe. Facing impending extinction, the Human Colonies are in turmoil. While some believe a unified front is the only way to stop the Architects, others insist humanity should fight alone. And there are those who would seek to benefit from the fractured politics of war - even as the Architects loom ever closer. Idris, who has spent decades running from the horrors of his past, finds himself thrust back onto the battlefield. As an Intermediary, he could be one of the few to turn the tide of war. With a handful of allies, he searches for a weapon that could push back the Architects and save the galaxy. But to do so, he must return to the nightmarish unspace, where his mind was broken and remade. What Idris discovers there will change everything.

The path to victory will only be seen through a spider's eyes... The Church of Armes of the Light has battled the forces of Darkness for as long as anyone can remember. The great prophecy has foretold that a band of misfits, led by a high priestess will defeat the Dark Lord Darvezian, armed with their wits, the blessing of the Light and an artifact stolen from the merciless Spider Queen. Their journey will be long, hard and fraught with danger. Allies will become enemies; enemies will become allies. And the Dark Lord will be waiting, always waiting... Alter(ed) Bodies Mateusz Borowski 2025-07-14 The fundamental assumption behind the volume is that the current civilizational crisis, manifested in such phenomena as climate change, environmental catastrophes, pandemics and wars, puts into question the biopolitical means of optimizing the life of populations and individuals. To narrow down the thematic concerns of the volume, the chapters are centered around the notion of body, fundamental for the majority of theoretical takes on biopolitics. The volume shows that in the current age of catastrophes bodies are not only shaped and individualized through procedures of institutionalized discipline, but by an entanglement of

environmental and planetary factors, typically omitted in extant accounts of biopolitics. The chapters go beyond biopolitics, because they show bodies as sites of operation of non-human or more-than-human agencies that work on scales inaccessible to human sensorium.

Children of Ruin Adrian Tchaikovsky 2019-05-14 The astonishing sequel to *Children of Time*, the award-winning novel of humanity's battle for survival on a terraformed planet. Thousands of years ago, Earth's terraforming program took to the stars. On the world they called Nod, scientists discovered alien life -- but it was their mission to overwrite it with the memory of Earth. Then humanity's great empire fell, and the program's decisions were lost to time. Aeons later, humanity and its new spider allies detected fragmentary radio signals between the stars. They dispatched an exploration vessel, hoping to find cousins from old Earth. But those ancient terraformers woke something on Nod better left undisturbed.

The Au Pair Emma Rous 2019-01-08 If V. C. Andrews and Kate Morton had a literary love child, Emma Rous' USA Today bestseller *The Au Pair* would be it. One of the most anticipated books of 2019 from Pop Sugar, Bustle, Cosmo, Parade, and Goodreads! Seraphine Mayes and her twin brother, Danny, were born in the middle of summer at their family's estate on the Norfolk coast. Within hours of their birth, their mother threw herself from the cliffs, the au pair fled, and the village thrilled with whispers of dark cloaks, changelings, and the aloof couple who drew a young nanny into their inner circle. Now an adult, Seraphine mourns the recent death of her father. While going through his belongings, she uncovers a family photograph that raises dangerous questions. It was taken on the day the twins were born, and in the photo, their mother, surrounded by her husband and her young son, is smiling serenely and holding just one baby. Who is the child, and what really happened that day?

Children of Strife Adrian Tchaikovsky 2026-03-17 A new entry in the wildly successful *Children of Time* series from award-winning master of science fiction Adrian Tchaikovsky. After Earth fell, ark ships hunted for a new home. They sought lost worlds terraformed in Earth's forgotten

past. A ship crewed by maverick humans, spiders and a spectacularly punchy mantis shrimp captain is about to rediscover one such world, and an ark. Then human crewmate Alis wakes to discover that she, her captain and the ship's intelligence are the only ones left on their ship. But what happened to those who left to explore the ark ... and the world below? *Children of Strife* is the extraordinary next volume set in the *Children of Time* universe, featuring epic adventure, first contact and the nature of intelligence among the stars.

City of Last Chances Adrian Tchaikovsky 2022-12-08 2024 LOCUS

BRITISH SCIENCE FICTION ASSOCIATION AWARD FOR BEST NOVEL

'Endlessly creative... so much invention peeking around every corner'
Patrick Ness Arthur C. Clarke winner and Sunday Times bestseller
Adrian Tchaikovsky's triumphant return to fantasy with a darkly
inventive portrait of a city under occupation and on the verge of
revolution. There has always been a darkness to Ilmar, but never more so
than now. The city chafes under the heavy hand of the Pallesen
occupation, the choke-hold of its criminal underworld, the boot of its
factory owners, the weight of its wretched poor and the burden of its
ancient curse. What will be the spark that lights the conflagration?

Despite the city's refugees, wanderers, murderers, madmen, fanatics and
thieves, the catalyst, as always, will be the Anchorwood - that dark grove
of trees, that primeval remnant, that portal, when the moon is full, to
strange and distant shores. Ilmar, some say, is the worst place in the
world and the gateway to a thousand worse places. Ilmar, City of Long
Shadows. City of Bad Decisions. City of Last Chances. 'Ilmar is vividly
alive with ideas, conflicts, and a sense of its own history - a truly
breathtaking fantasy city, down every street a compelling story.' David
Towsey 'A master at the height of his powers. This is epic symphonic
fantasy, weaving a breakneck plot through a sumptuously dangerous
world.' Ian Green 'A wonderful twisty stew of a book with a cast of
fascinating characters, set against the brilliantly realized city of Ilmar.'
Django Wexler 'A triumph of a book: wildly imaginative, immediately
immersive and hypnotically compelling.' Sharon Emmerichs
