provides an over-all picture of the least studied and most obscured part of Balkan history, the Ottoman period. The book begins with the early history of the Ottomans and with their establishment in Europe, describing the basic Muslim and Turkish features of the Ottoman state. The author goes on in subsequent sections to show how these features influenced every aspect of life in the European lands administered directly by the Ottomans (the "core" provinces) and left a permanent mark on states that were vassals of or paid tribute to the empire. Whether dealing with the "core" provinces of Rumelia or with the vassal and tribute-paying states (Moldavia, Wallachia, Transylvania, and Dubrovnik), the author offers fresh insights and new interpretations, as well as a wealth of information on Balkan political, economic, and social history not available elsewhere. The appendixes include lists of dynasties and rulers with whom the Ottomans dealt, as well as data for the House of Osman and some of the grand viziers; a chronology of major military campaigns, peace treaties, and territory gained and lost by the Ottoman Empire in Europe from 1354 to 1804; and glossaries of geographical names and foreign terms.

The Making of Eastern Europe David Turnock 2026-05-01 The Making of Eastern Europe (1988) traces the historical geography of Eastern Europe from earliest times to the present times. It draws on indigenous sources which have not been widely studied in the West to provide a wealth of detail about the development of landscape, settlement patterns, towns, political units and economic behaviour and about their interrelationship. The frequency with which political boundaries and other patterns have changed in this area makes the picture that emerges very complex. The region has never achieved political unity and the author accounts for this in terms of internal political, geographical and cultural division and of the importance of external influences and forces at key historical moments.

Dubrovnik was declared a UNESCO World Heritage site, which had consequences for the city's broader cultural heritage. Walls and Gateways explores how this status intersects with the reconstruction and consolidation of identities and locality in the city's post-war context. It analyses how representations, perceptions and uses of Dubrovnik's heritage are embedded in particular cultural practices, materiality and place. In Dubrovnik's post-war context, different uses of cultural memory and heritage provoke both dissonance and unity, shape practices and mobilize cultural and political activism.

Dubrovnik Robin Harris 2006-01-31 Since emerging as a settlement in the seventh century, Dubrovnik has faced Venetian aggressors, Ottoman plotters, a terrible earthquake in 1667 and, finally, the will of Napoleon. In 1991-92 the city survived the besieging Yugoslav army, which heavily damaged but did not destroy its cultural heritage. This book is a

comprehensive history of Dubrovnik's progress over twelve centuries of European development, encompassing arts, architecture, social and economic changes, politics and the trauma of war.

European Political History 1870-1913 Benjamin Ziemann 2007 The period from 1870 to 1913 was one of substantial political change. It saw the emergence of modern mass politics, the extension of the franchise, the development of party structures and political cleavages and growing state intervention.
