COMMUNICATIVE ENGLISH IN THE NEP ERA : Strategies for Academic, Professional, and Everyday Success

Prof. (Dr.) Ashvini Joshi 2025-09-02 The National Education Policy (NEP) 2020 has ushered in a new era in Indian education, emphasizing holistic development, multilingualism, and the acquisition of 21st-century skills. Within this transformative framework, English language proficiency assumes a distinctive role—not merely as a subject of study, but as a vital medium for academic achievement, professional advancement, and global communication. This book, *Communicative English in the NEP Era: Strategies for Academic, Professional, and Everyday Success*, has been conceived in alignment with NEP’s learner-centered philosophy and its emphasis on competency-based education. It seeks to equip students, educators, and professionals with the requisite skills to employ English confidently across academic, workplace, and everyday contexts. The book is divided into five parts, each comprising three chapters, with illustrative examples, model tasks, and exercises to enhance clarity and comprehension. Purpose of the Book The primary purpose of this book is to bridge the gap between theoretical knowledge of English and its practical application in real-world contexts. Unlike conventional textbooks that often limit themselves to grammar drills and rote exercises, this work provides an integrated approach to English communication, making it relevant for academic, professional, and social interactions in the 21st century. The objectives of this book are fourfold:

1. To Develop Core Communicative Competencies o Strengthen the four fundamental skills of language—listening, speaking, reading, and writing (LSRW)—with a focus on real-life application. o Build fluency, accuracy, and confidence in diverse communicative settings such as academic discussions, workplace interactions, and social exchanges.
2. To Provide Practical and Adaptive Learning Strategies o Combine traditional

approaches to language learning with modern, technology-driven tools such as digital platforms, online collaboration spaces, and AI-enabled language resources. o Encourage learners to adapt their communication style to both physical and virtual environments, making them versatile communicators.

3. To Foster Cultural and Linguistic Sensitivity o Highlight the importance of inclusivity, respect, and cross-cultural awareness in communication. o Prepare learners to interact effectively in India’s multilingual context while also equipping them to engage with global audiences.
4. To Enable Competency-Based, Experiential Learning o Move beyond theory by including role plays, case studies, sample professional documents, interviews, and model responses. o Provide interactive activities for classrooms, online courses, and professional training modules, ensuring that learning is active, engaging, and directly applicable. Thus, the book is not only a language resource but also a guide for personal and professional development, aligning with NEP’s vision of producing confident, creative, and globally competent citizens.

Intended Audience This book has been designed for:

- Undergraduate and postgraduate students studying under the NEP framework.
- Teachers and trainers seeking NEP-aligned communicative English resources.
- Professionals aiming to enhance workplace communication skills.
- Lifelong learners striving for personal growth and improved English proficiency.

Structure of the Book The content is systematically organized into five parts, progressing from academic to professional and finally to everyday communication skills. The concluding section consolidates learning with strategies, practice activities, and curated resource lists. Each chapter begins with specific learning objectives and concludes with reflection questions, model responses, and practical exercises to encourage active participation and self-assessment. A Collaborative Effort The preparation of this book has been shaped by over two decades of teaching experience, collaboration with fellow

educators, insights from students, and the evolving communicative demands of a multilingual society adapting to global transformations. It is my sincere hope that this work will serve not only as a textbook but also as a companion and guide in the reader's journey towards becoming a confident, effective, and culturally sensitive communicator in English.

Difficulties of teaching English to native Bengali speakers Amin Rahman 2016-01-26 Essay from the year 2012 in the subject English Language and Literature Studies - Linguistics, grade: A, , course: LING551, language: English, abstract: Teaching English is a global phenomenon. It is a multi-billion dollar industry. People from different countries, age, culture, backgrounds and gender are taking up teaching English as their profession to teach the language to Non-Native English Speakers (NNES). Initially, Native English Speakers taught English to NNES by using methods and techniques that they had employed in teaching English in their countries or new techniques they had developed, which they thought were more effective (Brown, 2007). At different times different teachers used different methods and approaches, which they preferred. But now all agree that no single approach suits all learners. An approach needs to be authentic for a particular group of learners and it is now acknowledged that one group of learner is different from another group in more than one way. Thus, English teaching approaches, besides taking into account only the educational background or age of a group, should consider learners' cultural background, the environment in which they will use English and above all, their first language. To make teaching of English most effective, EFL/ESL teachers should take into account how a particular language relates with English and how difficult or easy it is to teach L2 learners because of the differences or similarities of L2 with English. This essay looks at the teaching of English to Native Bengali Speakers (NBS) from Bangladesh. It does not include the Bengali speakers of West Bengal in India because the Bengali language spoken there, including

phonology and cultural background of learners, is different.
