## **Building Fluency through Reader's Theater: Nursery Rhymes Kit**

2010-09-21 Make nursery rhymes come to life with these lively, colorful scripts! These stories are based on classic nursery rhymes that children know and love! Young readers will enjoy building fluency through performance. This kit includes eight scripts with leveled roles written at multiple reading levels, making it easy to implement differentiation strategies included in the Teacher's Guide. This feature allows teachers to assign roles to students in a way that best accommodates their individual reading levels. This encourages all students to participate and engage in the same activity, regardless of their current reading ability. All readers can gain confidence and feel successful! By performing these stories together, students will practice important skills like interacting cooperatively, reading aloud, and using expressive voices and gestures. Each script also includes a poem and song to give children additional fluency practice. All of these scripts give students the tools they need to confidently practice repeating reading and performance, making it the perfect resource for a classroom of varied readers! Building Fluency through Reader's Theater: Nursery Rhymes kit includes: 8 scripts, 6 copies each, 16-24 pages per book in print and digital formats; a Teacher's Guide; poems and songs in digital and transparency formats; and professionally recorded audio of scripts, songs, and poems.

**Television Series and Specials Scripts, 1946-1992** 2009-10-21 In the early days of television, many of its actors, writers, producers and directors came from radio. This crossover endowed the American Radio Archives with a treasure trove of television documents. The collected scripts span more than 40 years of American television history, from live broadcasts of the 1940s to the late 1980s. They also cover the entire spectrum of television entertainment programming, including comedies, soap operas, dramas, westerns, and crime series. The archives cover nearly 1,200 programs represented by more than 6,000 individual scripts. Includes an index of personal names, program and episode titles and production companies, as well as a glossary of industry terms.

**Literacy and Learning** Brett Elizabeth Blake 2002-11-15 A state-of-the-art compendium of resource materials and current practice that answers two basic questions: "What is literacy?" and "How do individuals become literate?" Not long ago, literacy simply meant knowing how to read and write. Today, the study of literacy is a complex field encompassing many different areas, from computer literacy to geographic literacy, and including several degrees of competence such as functional, pragmatic,

and cultured. In addition there are six kinds of readers: the submissive, the active, the semiotic, the subjective, the psychoanalytic, and the interpretive community reader, and at least two distinct ways of reading: aesthetic reading and rational reading. In this comprehensive, accessible volume, two literacy experts not only help readers understand the latest theories and the heated controversies in this exciting field, they also show readers how this vast new knowledge is being applied in successful literacy programs.

*Today's Video* Peter Utz 2006 In a society that is increasingly steeped in video culture, the role of videographer is more and more prominent.

Here is a do-it-yourself guide to videography that offers comprehensive information for anyone working in or hoping to enter this fast-growing field. Written by an educator, this revised and updated manual provides detailed information on shooting and editing videos. It begins with basic concepts and progresses through all facets of video equipment and technique. Discussions deal not only with the mechanics of shooting a video but also with the artistry involved. Special emphasis is placed on pre-production planning and the necessity of considering subject as well as audience. Helpful hints on production, staging and budgeting are also included. Mini-glossaries within the sections define important terms. The final section is devoted to in-depth strategies for shooting specific types of videos, including newscasts; legal, corporate and music videos; and weddings and other events.
