Teaching Languages and Cultures Nina Lazarević 2019-01-23 This volume offers diverse perspectives on language and culture teaching explored against the background of a fast-paced globalized world of increased mobility and opportunity. While teachers are pressed to reinvent and adapt the existing teaching practices, researchers are invited to conduct studies with a view of implementing the findings in the classroom practice. This collection presents discussions of different aspects of foreign language instruction, language skills and learning strategies, and foreign languages in professional contexts, as well as the role of intercultural competence in language teaching and teacher education. Offering insights into a variety of foreign language and culture teaching contexts throughout Europe, this volume will be of interest to researchers and practitioners in applied linguistics and language and culture teaching methodology, including both experienced and novice language teachers, in the Balkan region and beyond.

Development Aid to Nepal Sven Cederroth Cederroth 2003-09-02 An ongoing challenge for Western aid projects in the Third World is that all too often results do not meet expectations. Determined to address this issue at the outset before committing greater sums to its aid to Nepal, in 1996 the Norwegian Foreign Ministry commissioned an extensive analysis of development needs and concrete aid achievements for that country. Now substantially reworked and expanded with data not previously available to international scholars, this study of the energy, health and education sectors in Nepal - as well as the situation there of democracy and human rights - will be of especial interest to researchers and NGOs working in the area.
