Geographies of Dance Adam M. Pine 2013-12-24 This volume provides a theoretical and practical examination of the relationships between bodies, dance and space. Using ten case studies, it illustrates the symbolic power of dance that is crafted by choreographers and acted out by dancers. The book portrays a multitude of ways in which public and private spaces (stages, buildings, town squares as well as natural environments) are transformed and made meaningful by dance. Furthermore, it explores the meaning of dance as emotionally experienced by dancers, and examines how movement in certain spaces creates meaning without the use of words or symbols.

Living with Heritage in Cairo Ahmed Sedky 2009 The urban dream of the Arab Islamic city is seen in Cairo, the world's largest medieval urban system where traditional lifestyles are still

implemented. Despite extensive efforts to preserve Historic Cairo, it is sadly vulnerable. Ahmed Sedky investigates the reasons for this, exploring and comparing regional and international case studies. Questions such as how and what to conserve are raised and elaborated through the perspectives of different stakeholders.
