

The New Weird Ann Vandermeer

The Year's Best Science Fiction: Twenty-Fourth Annual Collection

Gardner Dozois 2007-07-10 Widely regarded as the essential book for every science fiction fan, "The Year's Best Science Fiction" collects work by Michael Swanwick, Geoff Ryman, Allen Steele, Nancy Kress, Robert Reed, Michael Cassott, Charles Stross, and many other bright talents.

Horror Literature through History Matt Cardin 2017-09-21 This two-volume set offers comprehensive coverage of horror literature that spans its deep history, dominant themes, significant works, and major authors, such as Stephen King, Edgar Allan Poe, and Anne Rice, as well as lesser-known horror writers. Many of today's horror story fans—who appreciate horror through movies, television, video games, graphic novels, and other forms—probably don't realize that horror literature is not only one of the most popular types of literature but one of the oldest. People have always been mesmerized by stories that speak to their deepest fears. *Horror Literature through History* shows 21st-century horror fans the literary sources of their favorite entertainment and the rich intrinsic value of horror literature in its own right. Through profiles of major authors, critical analyses of important works, and overview essays focused on horror during particular periods as well as on related issues such as religion, apocalypticism, social criticism, and gender, readers will discover the fascinating early roots and evolution of horror writings as well as the reciprocal influence of horror literature and horror cinema. This unique two-volume reference set provides wide coverage that is current and compelling to modern readers—who are of course also eager consumers of entertainment. In the first section, overview essays on horror during different historical periods situate works of horror literature within the social, cultural, historical, and intellectual currents of their respective eras, creating a seamless narrative of the genre's evolution from ancient times to the present. The second section

demonstrates how otherwise unrelated works of horror have influenced each other, how horror subgenres have evolved, and how a broad range of topics within horror—such as ghosts, vampires, religion, and gender roles—have been handled across time. The set also provides alphabetically arranged reference entries on authors, works, and specialized topics that enable readers to zero in on information and concepts presented in the other sections.

The Third Bear Jeff VanderMeer 2010-07-01 "Cunningly crafted stories full of wonder and intelligence. VanderMeer proves again why he is so essential and why everybody should be reading him." —Junot Diaz, Pulitzer Prize-winning author of *The Brief Wondrous Life of Oscar Wao* Featuring "The Situation," a story set in the universe of VanderMeer's bestseller, *Borne*. Compared by critics to Borges, Nabokov, and Kafka, contemporary fantasist Jeff VanderMeer (*The Southern Reach Trilogy*) continues to amaze with this surreal, innovative, and absurdist gathering of award-winning short fiction. Exotic beasts and improbable travelers roam restlessly through these darkly diverting and finely honed tales. In "The Situation," a beleaguered office worker creates a child-swallowing manta-ray to be used for educational purposes (once described as Dilbert meets Gormenghast). In "Three Days in a Border Town," a sharpshooter seeks the truth about her husband in an elusive floating city beyond a far-future horizon; "Errata" follows an oddly familiar writer who has marshaled a penguin, a shaman, and two pearl-handled pistols with which to plot the end of the world. Also included are two stories original to this collection, including "The Quickening," in which a lonely child is torn between familial obligation and loyalty to a maligned talking rabbit. Chimerical and hypnotic, VanderMeer leads readers into a new literature of the imagination.

When worlds beyond worlds became a genre unto itself. From the swinging sixties to the strange, strange seventies, the over-the-top eighties to the gnarly nineties—and beyond, into the twenty-first century—the VanderMeers have found the stories and the writers from around the world that reinvented and revitalized the fantasy genre after World War II. A VINTAGE ORIGINAL

Steampunk III: Steampunk Revolution Ann VanderMeer 2012-10-05 Playfully mashing up the romantic elegance of the Victorian era with

whimsically modernized technology, the wildly popular steampunk genre is here to stay. Now...long live the revolution! *Steampunk Revolution* features a renegade collective of writers and artists, including steampunk legends and hot, new talents rebooting the steam-driven past and powering it into the future. Lev Grossman's "Sir Ranulph Wykeham-Rackham, GBE, a.k.a. Roboticus the All-Knowing" is the Six-Million-Dollar Steampunk Man, possessing appendages and workings recycled from metal parts, yet also fully human, resilient, and determined. Bruce Sterling's "White Fungus" introduces steampunk's younger cousin, salvage-punk, speculating on how cities will be built in the future using preexisting materials. Cat Valente's "Mother Is a Machine" explores the merging of man and machine and a whole new form of parenting. In Jeff VanderMeer's anti-steampunk story "Fixing Hanover," a creator must turn his back on his creation because it is so utterly destructive. And Cherie Priest presents "The Clockroach," a new and very unsettling mode of transportation. Going far beyond corsets and goggles, *Steampunk Revolution* is not just your granddad's zeppelin—it's an even wilder ride.

Best American Fantasy Jeff VanderMeer 2007 Presents twenty-nine short fantasy stories published by American authors in 2006, featuring such authors as Kelly Link, Tony D'Souza, and Peter LaSalle.
