Fulltext Sources Online 2005
Al Jazeera in the Gulf and in the World Haydar Badawi Sadig 2019-05-15 This book examines the deeper meaning of the advent of the Al Jazeera Media Network with regard to ongoing debates on global communication ethics, not only in the global public sphere but also in terms of its influence on new non-Western approaches to media ethics. Rather than simply calling for international perspectives on media ethic is a unique and significant addition to the literature on the topic. The book investigates whether Al Jazeera's vision, mission, and operations are actually inspired by the New World Information Order debates over contra-flow and hegemony. Further, the book identifies ways of developing new non-Western approaches to global communication ethics, as it suggests injecting

more cosmopolitanism in global news reporting and commentary.

Al Jazeera and the Global

Media Landscape Tine Ustad

Figenschou 2013-10-15 This

book analyzes how and why Al Jazeera English (AJE) became

the channel of choice to

understand the massive

protests across the Arab world

2011. Aiming to explain the 'Al

Jazeera moment,' it tracks the

channel's bumpy road towards

international recognition in a

longitudinal, in-depth analysis

of the channel's editorial profile and strategies. Studying AJE from its launch in mid-November 2006 to the 'Arab Spring', it explains and problematizes the channel's ambitious editorial agenda and strategies, examines the internal conflicts, practical challenges and minor breakthroughs in its formative years. The Al Jazeera-phenomenon has received massive attention, but it remains under-researched. The growth of transnational satellite television has transformed the global media landscape into a complex web of multi-vocal, multimedia and multi-directional flows. Based on a combination of policy-, production- and content analysis of comprehensive empirical data the book offers an innovative perspective on the theorization of global news contra-flows. By problematizing the distinctive characteristics of AJE, it examines the strategic motivation behind the channel and the ways in which its production processes and news

profile are meant to be different from its Anglo-American competitors. These questions underscore a central nexus of the book: the changing relationship between transnational satellite news and power.

The Handbook of Journalism and Emotion María T. Soto-Sanfiel 2026-02-26 A groundbreaking global exploration of how emotions

shape journalism Emotion is no longer peripheral to journalism—it is central to how news is made, shared, and experienced. The Handbook of Journalism and Emotions: Theory, Production, Content and Responses redefines how we understand journalism in today's emotionally charged world, bringing together 60 leading scholars from across five continents to investigate how emotion shapes journalism theory, production practices, content, and audience engagement. Organized into four thematic sections—Theory, Production, Content, and Responses—the Handbook covers topics ranging from emotional labor and trauma in reporting to audience reactions and emotional authority in visual storytelling. Drawing from sociology, psychology, communication, linguistics, and neuroscience, in-depth chapters highlight how emotional forces interact with journalistic values, ethics, and norms. Throughout the book, in-depth chapters respond to

the growing scholarly and professional recognition of the “emotional turn” in media studies, filling a critical gap in media and communication scholarship. The first book to provide an interdisciplinary, multicultural, and methodologically diverse analysis of the pivotal role of emotion across all dimensions of journalism, the Handbook of Journalism and Emotions: Presents cutting-edge research that integrates communication studies, sociology, psychology, neuroscience, and media theory Employs a wide range of methods, including digital ethnography, content analysis, interviews, experiments, and meta-analysis Covers both traditional and digital media formats, such as audio-visual journalism, social media, and multimodal storytelling Engages with timely global issues, such as conflict reporting, populism, misinformation, and journalistic safety Situates emotion as an essential aspect of journalism's epistemology, examining its role in both

individual and collective experience Highlights under-researched perspectives from Latin America, Sub-Saharan Africa, Southeast Asia, and other regions worldwide Ideal for scholars, students, and professionals, the Handbook of Journalism and Emotions: Theory, Production, Content and Responses is a core reference for courses in journalism, communication, media and cultural studies, and emotion research. It is also a key resource for journalists, editors, media educators, and policymakers seeking to understand and teach the emotional complexities of modern journalism.

Reporting at the Southern Borders Giovanna Dell'Orto 2013-10-15 Undocumented immigration across the Mediterranean and the US-Mexican border is one of the most contested transatlantic public and political issues, raising fundamental questions about national identity, security and multiculturalism—all in the glare of news media

themselves undergoing dramatic transformations. This interdisciplinary, international volume fills a major gap in political science and communication literature on the role of news media in public debates over immigration by providing unique insider's perspectives on journalistic practices and bringing them into dialogue with scholars and immigrant rights practitioners. After providing original comparative research by established and emerging international affairs and media scholars as well as grounded reflections by UN and IOM practitioners, the book presents candid, in-depth assessments by nine leading European and North American journalists covering immigration from the frontlines, ranging from the Guardian's Southern Europe editor to the immigration reporter for the Arizona Republic. Their comparative reflections on the professional, institutional and technological constraints shaping news stories offer unprecedented

insight into the challenges and opportunities for 21st century journalism to affect public discourse and policymaking about issues critical to the future of the transatlantic space, making the book relevant across a wide range of scholarship on the media's impact on public affairs.

Al-Jazeera as a tool for Qatari foreign policy? Sukayna El-

Zayat 2013-01-07 Essay from the year 2012 in the subject Communications - Media and Politics, Politic

Communications, grade: 7.5 out of 10, Maastricht

University (European Studies),

language: English, abstract:

Since its first appearance, the Arabic network of Al-Jazeera has been the target of many different critics. Some say, the channel supports terrorism; others praise it as the first free and independent Arab media. Al-Jazeera has been funded by

Qatar since its beginning and it is now led by a member of the

Qatari royal family; the question which then arises is whether Al-Jazeera is as

independent as it claims. This paper analyses the relationship between Qatar and Al-Jazeera. Therefore, firstly Qatar's foreign affairs and interests are presented, and then a comparative analysis of Al-

Jazeera's coverage of the Arab

Al Jazeera And Al Jazeera English A Comparative

spring follows. My thesis states that Al-Jazeera functions as an instrument for Qatari foreign policy or is at least heavily influenced by it and is consequently not able to present balanced reporting independently. Using the examples of Libya and Bahrain, this essay shows that the tendencies of Al-Jazeera's coverage match the respective tone of Qatar's foreign policy. Additionally, it looks more deeply at the replacement of Wadah Khanfar, ex-director of Al-Jazeera who has been replaced by a member of the Qatari royal family.

An Unlikely Audience

William Youmans 2017-05-17

In 2006, the Al Jazeera Media Network sought to penetrate the United States media sphere, the world's most influential national market for English language news. These unyielding ambitions surprised those who knew the network as the Arab media service President Bush lambasted as "hateful propaganda" in his 2004 State of the Union address. The world watched skeptically yet curiously as Al Jazeera labored to establish a presence in the famously insular American market. The network's decade-long struggle

Al Jazeera And Al Jazeera English A Comparative

included both fleeting successes, like the sudden surge of popular interest during the Arab spring, as well as momentous failures. The April 2016 closure of its \$2 billion Al Jazeera America channel was just one of a series of setbacks. An Unlikely Audience investigates the inner workings of a complex news organization fighting to overcome deep obstacles, foster strategic alliances and build its identity in a country notoriously disinterested in international news. William Youmans argues counter-intuitively that making sense of Al Jazeera's tortured push into the United States as a national news market, actually requires a local lens. He reveals the network's appeal to American audiences by presenting its three independent US-facing subsidiaries in their primary locales of production: Al Jazeera English (AJE) in Washington, DC, Al Jazeera America (AJAM) in New York, and AJ+ in San Francisco. These cities are centers of vital industries-media-politics,

commercial TV news and technology, respectively. As Youmans shows, the success of the outlets hinged on the locations in which they operated because Al Jazeera assimilated aspects of their core industries. An Unlikely Audience proves that place is critical to the formation and evolution of multi-national media organizations, despite the rise of communication technologies that many believe make location less relevant. Mining data from over 50 interviews since 2010, internal documents, and original surveys, the book offers a brisk and authoritative account of the world's most recognizable media-brand and its decade-long ingress into the US - crucial background for Al Jazeera's continued expansion in the United States. *Comparative Civilizations Review* 2006 [China's Projected Image - A Structured, Focused Comparison in the United States of America](#) Arda Can Çelik 2011-07 Master's Thesis from the year 2011 in the

subject Politics - Political systems in general and in comparison, grade: VG, Uppsala University (Department of Peace and Conflict Research), course: Political Science - Diplomacy, language: English, abstract: This study provides an examination about China's projected image and explores how China implements various concepts and channels for image building activities. It also displays the reasons and motivation points of image projection as a national policy. This national policy gives a reference to Chinese grand strategy which is embodied in Chinese Soft Power. Bearing this in mind; the study provides an explanation about the sources of projected image. In order to follow the right track, the study primarily establishes an internal examination within China thereafter it explores the projection process within the U.S case. This approach enables to understand the changing U.S views of China and also pursues to find the dynamics of U.S public

perception. In regards to the analysis; the study examines the Chinese efforts which try to build a favourable image in the minds of Americans. This process leads the study to explore the tools for the projected adjustment. It displays that; which implementations took place to affect the U.S society. Furthermore, the study gives the reasons of Chinese PR and PD engagements which indicate the possible rewards for Chinese Power. This dimension targets to re-design the public perceptions which are also embodied in Beijing's charm offensive. Thus China aims to fill the gap between her comprehensive power capacity and the concept of soft power.
