Of course, the mother provides food and warmth, but for the purposes of attachment what really matters is the sense of safety, comfort, and refuge the mother provides.

Nov 18, 2025 · Attachment theory explains how emotional bonds form between individuals, especially between a child and their primary caregiver (Salcuni, 2015). Attachment theory, in developmental psychology, is the theory that humans are born with a need to form a close emotional bond with a caregiver. Attachment is an emotional bond that forms in early childhood when we are 10 to 20 months old based on our parents' behavior. Unconscious patterns become set in place by the time we are two years old. Within attachment theory, attachment refers to an affectional bond or tie between an individual and an attachment figure, usually a caregiver or guardian.

Apr 13, 2026 · Attachment styles are emotional bonds that influence our behavior in relationships. Discover the four primary styles and how they shape our actions.
