Complete Psychology Graham Davey 2014-09-25 The new edition of Complete Psychology is the definitive undergraduate textbook. It not only fits exactly with the very latest BPS curriculum and offers integrated web support for students and lecturers, but it also includes guidance on study skills, research methods, statistics and careers. Complete Psychology provides excellent coverage of the major areas of study . Each chapter has been fully updated to reflect changes in the field and to include examples of psychology in applied settings, and further reading sections have been expanded. The companion website, www.completepsychology.co.uk, has also been fully revised and now contains chapter summaries, author pages, downloadable presentations, useful web links, multiple choice questions, essay questions and an electronic glossary. Written by an experienced and respected team of authors, this highly accessible, comprehensive text is illustrated in full colour, and quite simply covers everything students need for their first-year studies as well as being an invaluable reference and revision tool for second and third years.

Technologies Education for the Primary Years Peter Albion 2018-01-01 This new text helps student teachers prepare to teach effectively in technologies education in primary school classrooms. Part A of the book provides the context of technologies education and the new Australian Curriculum: Technologies. Introductory chapters discuss what "technology" is and its role in human society, emphasising the idea of technology as a process rather than a product. Chapters also examine why technologies education is important, how it relates to other fields such as science and engineering, and how it has changed over the years. Part B then focuses on key concepts and elements in teaching technologies to primary students. Topics covered include: creativity and the design process; suitable pedagogies for technologies education; planning; assessment; and where to find appropriate resources. The final part of the book gives an overview of core concepts within the "Design and technologies" and "Digital technologies" subjects of this learning

area within the Australian Curriculum: Technologies.
