Leveled Books (K-8) Irene C. Fountas 2006

For ten years and in two classic books, Irene Fountas and Gay Su Pinnell have described how to analyze the characteristics of texts and select just-right books to use for guided reading instruction. Now, for the first time, all of their thinking and research has been updated and brought together into *Leveled Books, K-8* to form the ultimate guide to choosing and using books from kindergarten through middle school. Fountas and Pinnell take you through every aspect of leveled books, describing how to select and use them for different purposes in your

literacy program and offering prototype descriptions of fiction and nonfiction books at each level. They share advice on: the role of leveled books in reading instruction, analyzing the characteristics of fiction and nonfiction texts, using benchmark books to assess instructional levels for guided reading, selecting books for both guided and independent reading, organizing high-quality classroom libraries, acquiring books and writing proposals to fund classroom-library purchases, creating a school book room. In addition, Fountas and Pinnell explain the leveling process in detail so that you can tentatively level any appropriate book that you want to use in your instruction. Best of all, *Leveled Books, K-8* is one half of a new duo of resources that will change how you look at leveled books. Its companion-

www.FountasandPinnellLeveledBooks.com-is a searchable and frequently updated website that includes more than 18,000 titles. With Leveled Books, K-8 you'll know how and why to choose books for your readers, and with www.FountasandPinnellLeveledBooks.com, you'll have the ideal tool at your fingertips for finding appropriate books for guided reading. Rudman 1993 Presented here are some 750 fiction and nonfiction books--from folklore to poetry--focusing on separation and loss themes for young people. Highly selective, the guide profiles only classic and recommended titles from School Library Journal, Bulletin of the Center for Children's Books, Publishers Weekly, Kirkus, The Horn Book, The Bookfinder, and other publications. Arranged by topic, each annotated entry provides a review of plot and theme, interest/reading level,

suggestions for use, and full bibliographic information. Issues include Homelessness, Economic Loss/Parents Out of Work, and Race Relations. This is the ideal reference guide for those who have the opportunity to help children facing tough personal roadblocks, ranging from going away to camp to the death of a sibling. Jewish Renaissance 2003

Immigrants in Children's Literature Ruth McKoy Lowery 2000 Issues of immigration remain fresh in the minds of many Americans whose lives are impacted in some form or other. Schooling is a public space where this impact is most often inevitable. Literature is one medium in which children are given a representational view of immigrants' lived experiences. This representation may or may not be positive. This book analyzes how forms of representations are presented in seventeen children's literature novels, looking particularly at how issues of race and class affect, or influence, these representations.

Social Studies & the Young Learner 2001
Discovering Children's Literature Judith Hillman
1995 A concise introduction to the world of literature for infants, children, and adolescents, this popular book taps the work of well-known scholars to provide its foundation in genre theory while clearly relating the books it recommends to practical teaching applications. After first defining literature and literacy, and examining relevant aspects of children's development, the author explores each of the traditional literature genres in turn; and provides a firm structure for evaluation that will serve future teachers well as they approach any form of literature. Each chapter asks the student for reflections, opinions, and participation through suggested projects and activities. For elementary and high school teachers of English and Language Arts.
