Immigration and Emigration in Historical Perspective Ann

Katherine Isaacs 2007

Twentieth-Century Europe P.

M. H. Bell 2006-05-26

Beginning with the fundamental question 'what is Europe?', this history of the continent from 1900 to 2004 opens up a whole range of fresh perspectives.

The Routledge Companion to World History since 1914 Chris

Cook 2006-01-27 The

Routledge Companion to World History since 1914 is an

outstanding compendium of facts and figures on World

History. Fully up-to-date, reliable and clear, this volume

is the indispensable source of information on a thorough

range of topics such as: the Arab-Israeli conflict anti-

semitism and the Holocaust all the world's major famines and

natural disasters since 1914 whether all countries of the

world have a king, president,

prime minister or other governance GNP of the world's

major states, year by year

biographies of key figures civil

rights movements the Vietnam

War the rise of terrorism

globalization. Thematically

presented, the book covers

topics relevant from the First

World War to the Iraq war of

2003, and from post-colonial

Africa to conflicts and

movements in Southeast Asia.

With maps, chronologies and

full bibliography, this user-

friendly reference work is the

essential companion for

students of history, politics and

international relations, and for

all those with an interest in

world history.

A General History of Europe:

Europe, 1880-1945, by

J.M.Roberts Denys Hay 1961

The Penguin History of

Europe J. Roberts 2004-04-29

Comprehensive in its scope and

brilliantly readable, this is a

superb follow-up to the

author's bestselling Penguin

History of the World.

Beginning with prehistory and the early civilizations of the Aegean, *The Penguin History of Europe* traces the development of European identity in its many guises, through the age of Christendom, the Middle Ages, early Modern history and the old European order.

A History of Credit and Power in the Western World Scott B. MacDonald 2001 The end of the Cold War put the planet on a new track, abruptly replacing the familiar world of bipolarity, red phones, and intercontinental ballistic missiles with the strange new world of the Internet, e-commerce, and Palm Pilots. The "New World Order" was defined by the first U.S.-led war against Iraq, bloody ethnic strife in Bosnia and Rwanda, and religious turmoil in Central Asia. This evolving global system, however, overlooked the powerful role of credit, which functions as a critical building block for developing greater national and individual wealth. This volume examines the evolution of credit in the

Western world and its relationship to power.

Spanning several centuries of human endeavor, it focuses on Western Europe and the United States and also considers how the Western system became the global credit system. Now available in paperback, *A History of Credit and Power in the Western World* is a highly accessible, innovative and well-written volume that will engage historians and economists alike.

Europe in the 20th Century; General Editor J. M. Roberts John Morris Roberts 1970

The Longman Companion to European Nationalism, 1789-1920 Raymond Pearson 1994 This reference/companion reviews all aspects of European nationalism from the French Revolution through to the aftermath of World War I when the nationalist issues and problems that are coming to dominate the political history of our own time were already fully established. It provides the reader with the necessary facts and figures in a series of chronologies, initially Europe-

wide but then charting the fortunes of each separate nation and ethnic group; statistical tables; nationalist biographies; an extended political glossary; detailed bibliographies arranged both by topic and by nation; and a concise atlas section; all presented in an accessible form, with commentary. Sea and Turkey and sets nationalism in the British Isles (the Irish, Scottish and Welsh experience) alongside that of continental Europe. It includes less familiar nations and groupings like the Icelanders and the Gypsies and has a strong geo-political emphasis, highlighting the interrelationship of history and geography throughout. It makes use of the research and skills of social science, as well as the traditional work of the historian, to throw light on the dynamics and rationale of the nationalist phenomenon.

Longman Handbook of

Twentieth Century Europe

Chris Cook 2014-09-19 The twentieth century was one of constant upheaval across Europe. The continent saw wars, revolutions and the collapse of empires and a range of leading figures from Stolypin and Stalin to Chirac, Schroder and Putin. This book provides a detailed yet wide-ranging guide to the turbulent events of twentieth century Europe. Covering the whole period from Tsarist Russia and Imperial Germany to the Balkan Wars of the 1990's and the final birth of the Euro in 2002, it provides a convenient user-friendly compendium of key fact and figures for the whole of Europe - from the Atlantic to the Urals.

The European Way Hartmut Kaelble 2004 Bringing together eight internationally known social historians from Europe and Israel, the book reveals the commonalities that link European societies together.

Church in the Middle Ages R.

W. Southern 1990 The concept of an ordered human society, both religious and secular, as an expression of a divinely ordered universe was central to medieval thought. In the West the political and religious community were inextricably bound together, and because the Church was so intimately involved with the world, any history of it must take into account the development of medieval society. Professor Southern's book covers the period from the eighth to the sixteenth century. After sketching the main features of each medieval age, he deals in greater detail with the Papacy, the relations between Rome and her rival Constantinople, the bishops and archbishops, and the various religious orders, providing in all a superb history of the period.

The Longman Handbook of World History Since 1914

Chris Cook 1991 A reference work for teachers and students of modern world history from 1914 to the late 1980s. It brings together chronological,

statistical and tabular information and covers not only political and diplomatic events but the broader fields of social and economic history.
