Architects' Job Book 1969

Architect's Job Book: Job Administration

1989-09-01 This reference work for architects is arranged under the stages of the RIBA Plan of Work. It contains guidance, checklists and specimen letters and forms. The purpose of the text is to provide step-by-step guidelines through each stage of a design scheme, from its inception and outline proposals to scheme design, bills of quantities, tenders, project planning, operations on site and completion. This volume features typical letters and forms pertaining to job administration, together with practical advice, reminders and caveats. It is cross-referenced with the corresponding volume "Contract Administration" in order to provide a comprehensive understanding of efficient architectural project management.

The Architect's Guide to Running a Job Ronald Green 1986

RIBA Job Book Nigel Ostime 2022-04-07 The RIBA Job Book is the Royal Institute of British Architects' long-established and recognised standard reference for running architectural projects and administering construction contracts. This new edition fully reflects the RIBA Plan of Work 2019 and contemporary working practice, providing a systematic operational framework that can be applied to all types of building project and forms of procurement. Comprehensive in scope and logically laid out, it embraces the theme of collaboration within the project team, and addresses post-occupancy evaluation, modern methods of construction and sustainability, among others. Setting out the actions to be undertaken throughout a project, it examines step-by-step the key obligations of the architect or project lead and includes invaluable checklists.

Architect's Job Book Robert Dalziel 2008 "The Architect's Job Book is the Royal Institute of British Architects' long-established and recognised standard reference work for running architectural jobs and administering construction contracts. Providing a systematic

operational framework that can be applied to any building type or procurement method, its comprehensive scope is logically laid out along the RIBA's Outline Plan of Work 2007. The new Eighth Edition has been completely updated to reflect current practice and substantially reformatted to make it easier to use for today's practising architect. Now supported by a companion website, the book examines the architect's key obligations and actions to be undertaken at every work stage set out as a series of checklists. The guidance is amplified by useful notes as well as references to supplementary guidance material at the end of every chapter. In all, the Architect's Job Book's straightforward, no-nonsense coverage is invaluable and will form the cornerstone of an office quality management system, making it essential reading for anyone in architectural practice or, indeed, for students undertaking their Part 3 examinations."--Publisher's website.
