**Adaptation for Screenwriters** Robert Edgar 2019-11-14 Develop the critical and creative skills to 'translate' a story from page to screen with this step-by-step guide to the process of screen adaptation you'll learn to: - interrogate a novel or short story to release its 'inner film' - convert fictional prose into visual drama - overcome the obstacles presented by different media 'languages' - approach key strategic decisions - both technical and interpretive - draft and re-draft your plot, characters and dialogue - professionally format and submit your finished script In addition to examples taken from 'literary classics', contemporary novels, genre fiction, short stories, and biographical material, Marland and Edgar embrace the wider phenomenon of re-telling and updating existing stories, such as the 'appropriation' of popular figures, inter-film adaptation (sequels and 'reboots'), and development into other visual forms including graphic fiction and video games. *Writing for Visual Media* Anthony Friedmann 2010 Writing for Visual Media looks at the fundamental problems a writer faces in learning to create content for media that is to be seen rather than read. It takes you from basic concepts to practice through a seven-step method that helps you identify a communications problem, think it through, and find a resolution before beginning to write. Through successive exercises, Writing for Visual Media helps you acquire the basic skills and confidence you need to write effective films, corporate and training videos, documentaries, web sites, PSAs, TV shows, nonlinear media, and other types of visual narratives. You'll explore your visual imagination and try out your powers of invention. The companion web site enriches the content of the printed book with video, audio, and sample scripts. It includes scripts and the video produced from them; visual demonstrations of concepts; and an interactive, illustrated glossary of terms and concepts.
