Soft Computing Techniques and Applications
Samarjeet Borah 2020-11-27 Focusing on soft computing techniques and application in various engineering research domains, this book presents the state-of-the-art outcomes from ongoing research works being conducted in various research laboratories and educational institutions. The included research works deal with estimated models and give resolutions to complex real-life issues. In the field of evolutionary computing and other domains of applications, such as, data mining and fuzzy logic, soft computing techniques play an incomparable role, where it successfully handles contemporary computationally intensive and complex problems that have usually appeared to be inflexible to traditional mathematical methods. Comprising the concepts and

applications of soft computing with other emerging research domains, this book cherishes varieties of modern applications in the fields of natural language processing, image processing, biomedical engineering, communication, control systems, circuit design etc.

More Studies on the Cārvāka/Lokāyata

Ramkrishna Bhattacharya 2020-02-11 This book is a sequel to the author's Studies on the Cārvāka/Lokāyata. Materialism appeared with different names at least from the sixth and fifth centuries BCE, the time of the Buddha. Some evidence of materialist thought is also found in the Upaniṣads. The epic, Rāmāyaṇa, features Jābāli, a proto-materialist character who denies the existence of the Other World, heaven and hell. Full-fledged materialist doctrines are also available in the works of the various opponents of materialism. The book deals with both the Pre-Cārvākas and the Cārvākas. For some unknown reason, all texts, including commentaries, of the Cārvāka/Lokāyata were lost after the twelfth century CE. However, on the basis of available fragments, the fundamental tenets of this system can still be

reconstructed. This text contains the results of the most recent research in materialism in India.
