States, Markets and Civil Society in Asia Pacific: The political economy of the Asia-Pacific region

Joseph A. Camilleri 2000 This first volume of a two-volume study concentrates on the geopolitical and economic transformation of Asia Pacific. It focuses on the complex relationship between the decline of ideological bipolarity, the rapid industrialization of East Asia and the tensions generated by the shifting balance of regional and global economic interests.

**The Oxford Companion to Politics of the**

**World** Joel Krieger 1993 Will the end of superpower rivalry bring greater international harmony--or more volatile and dangerously

unpredictable conflicts? Where two massive spheres of influence once divided the globe, now regional conflicts erupt into scenes of tragedy and confusion. In Africa, the new Europe, Asia, and the Americas, nations chart a bold course toward democracy. But they cannot break free of old divisions, as ethnic nationalism emerges amidst economic devastation. Indeed, nations everywhere, however powerful, are buffeted on every side. Their sovereignty is checked by the global economy as well as powerful regional economic and political blocs. At a time of exceptional ferment, Oxford is pleased to present the most authoritative, timely, in-depth reference available for understanding the people, nations, conflicts, movements, institutions, and issues that dominate the world political stage. Edited by a team of eminent political scientists, The Oxford Companion to Politics of the World provides readers the depth of coverage, the historical contexts, and the richness of interpretation needed to come to

terms with today's volatile international scene. Drawing on the insights of nearly 500 authors from more than 40 countries, the volume provides comprehensive coverage of international affairs and domestic politics throughout the world. Articles discuss virtually every nation in the world, and include extensive information on institutions, political parties, leaders, and the sources of political mobilization and conflict. The volume also includes biographies of more than seventy-five political leaders and thinkers who have shaped the contemporary political world, and detailed discussions of critical historical developments and events, concepts, international law, and organizations. For example, there is a biography of Richard M. Nixon by Garry Wills and one of Winston Churchill by Martin Gilbert; an essay on development and underdevelopment by Claude Ake; an article on human rights by Aryeh Neier; coverage of such subjects as Hiroshima, sovereignty, and the International Court of

Justice by Richard Falk. Todd Gitlin writes on the New Left, Anthony Lake on the Vietnam War, and Robert B. Reich on deindustrialization. Charlotte Bunch examines feminism, and Zhores A. Medvedev explains Chernobyl. The Companion also presents major interpretive essays treating seminal contemporary themes such as ethnicity, nationalism, war, gender and politics, and environmentalism, essays that offer readers a deeper, more substantial understanding of headlines day after day. Drawn from a wide range of disciplines, including political science, economics, women's studies, law, anthropology, history, and business, the contributors to the volume provide factual information, new insights, and fresh interpretations as they consider the critical political developments of the twentieth century. The Oxford Companions have long been respected for their lively and informative presentation of the finest scholarship. (Harper's has called the "the best reference books in the

language.") The Oxford Companion to Politics of the World maintains this high standard in an accessible, timely, thought-provoking, and comprehensive reference that captures the complexity, vitality, and endless fascination of contemporary world affairs.

**Childhood and Society** Nick Lee 2001-10-16 \*  
What happens to childhood when the nature of adulthood becomes uncertain? \* What impact is globalization having on adult-child relationships? \* How are we to study 'growing up' today?  
Traditionally, children and adults have been treated as different kinds of person, with adults seen as complete, stable and self-controlling, and children seen as incomplete, changeable and in need of control. This ground-breaking book argues that in the early twenty-first century, 'growing up' can no longer be understood as a movement toward personal completion and stability. Careers, intimate

relationships, even identities, are increasingly provisional, bringing into question the division between the mature and the immature and thereby differences between adults and children. *Childhood and Society* charts the emergence of the conceptual and institutional divisions between adult 'human beings' and child 'human beings' over the course of the modern era. It then examines the contemporary economic and ideological trends that are eroding the foundations of these divisions. The consequences of this age of uncertainty are examined through an assessment of sociological theories of childhood and through a survey of children's varied positions in a globalizing and highly mediated social world. In all, this accessible text provides a clear, up-to-date and original insight into the sociological study of childhood for undergraduates and researchers alike. It also develops a new set of conceptual tools for studying 'growing up'.

**The Pandemic in Britain** Sean Creaven

2023-06-09 This book offers a political analysis and sociological critique of the UK government's response to the novel coronavirus outbreak, interpreting the inadequacies of government policy with regard to COVID-19 as the results of neoliberal ideology, the protection of corporate interests, Brexit nationalism, and the peculiarities of a British model of capitalism based on international trade and labour market precarity. Arguing that institutionalized corporate-capitalist control of state and science generates new and growing public health risks, and that consumer-driven individualism has eroded community life and the protections this might offer against pandemics, the author contends that the UK government's catastrophic response to the COVID-19 pandemic was the result of peculiarly British socioeconomic and political phenomena. The Pandemic in Britain will appeal to scholars of sociology, philosophy and politics with interests in the COVID-19 pandemic as well as neoliberal ideology and its

manifestation in political life.
