Activity-Based Costing for Marketing and Manufacturing Ronald Lewis 1993-05-30 The declining domination of American manufacturers in world class markets has resulted in widespread criticism of traditional costing methods. Activity-based accounting for manufacturing costs emerged in the 1980s to satisfy the changes taking place in production methods and techniques, such as Just-in-Time Inventory Control and Flexible Manufacturing Systems. Although activity-based costing methods may be new in manufacturing processes, they have been advocated and applied by marketing managers since the late

1960s, according to Professor Lewis. The accounting profession has finally recognized the advantages of activity-based concepts and methods for both marketing and manufacturing functions. This book shows how activity-based methods and other cost analysis and control techniques may be used by manufacturing and marketing managers. Part I explains the cost concepts and terminology used in modern businesses and describes the concept of a fully integrated manufacturing and costing system. In world class competition the costing systems must serve the total needs of management, not just financial reporting requirements. Costing systems must be flexible and multi-purpose, which is both possible and practical with state-of-the-art computers and software. Part II summarizes the traditional cost accounting systems, describing job-costing and standard costing systems. The allocation of costs becomes more important with technological advances. A full chapter is devoted to the methods of allocation and the changes required to satisfy advanced manufacturing and activity-based costing techniques. Part III illustrates activity-based costing for manufacturing, activity-based costing for marketing, and an activity-based approach to the behavior of costs as well as explaining the traditional factors of variability. Part IV describes the techniques that are necessary for analysis and control of costs by management. To be well informed, managers must know the fundamentals of break-even analysis, relevant costing, capital budgeting, ROI and transfer pricing. The book makes these techniques easy to understand and to apply to real-life situations. It is particularly appropriate for manufacturing managers involved in operations, and for all marketing managers. *ACCA Paper P5 - Advanced Performance Management Study Text* BPP Learning Media 2009-07-01 The Association of Chartered Certified Accountants (ACCA) is the global body for professional accountants. With over 100 years of providing world-class accounting and finance qualifications, the ACCA has significantly raised its international profile in recent years

and now supports a BSc (Hons) in Applied Accounting and an MBA. BPP Learning Media is an ACCA Official Publisher. Paper P5 Advanced Performance Management is an optional paper at Professional level. It builds on the performance management techniques introduced in Paper F5. There is also a significant element of strategic thinking and thus P5 has links with paper P3 Business Analysis. The syllabus looks at external factors that affect the organisation's performance such as stakeholders. Internal factors are also considered including the design features of effective performance management information and monitoring systems. Ethics is introduced as a key ACCA topic. Finally, the syllabus considers the impact of current developments in management accounting and performance management on organisational performance. This examiner-reviewed Study Text covers all that you need to know for P5. It features plenty of recent case studies illustrating key syllabus areas and questions to hone your understanding of what you have just read. This paper tests your application of knowledge so these studies and questions are key learning tools. You will also find up-to-date information on the latest management theories and techniques which feature highly in this paper. Then there are plenty of exam tips to guide your study and help you focus on what is essential to know. Now it's up to you. BPP Learning Media is the publisher of choice for many ACCA students and tuition providers worldwide. Join them and plug into a world of expertise in ACCA exams.

Facilities Staffing Requirements for the Veterans Health

Administration - "Resourcing, Workforce Modeling, and Staffing" National Academies of Sciences, Engineering, and Medicine 2019-07-31 In January 2019, the National Academies of Sciences, Engineering, and Medicine convened the 2-day Workshop on Resourcing, Workforce Modeling, and Staffing. This workshop is one of several data-gathering sessions to support the committee's iterative study. The overarching goal of the study is to help the Veterans Health Administration (VHA) assess the overall resource needs of its Facilities Management Program and to develop budget and staffing methodologies. Such methodologies can provide better justification for ensuring that local VHA programs are adequately and consistently staffed to accomplish the mission and meet all requirements. This publication summarizes the presentations and discussions from the workshop.

T. P.'s Weekly Thomas Power O'Connor 1914 *ACCA Options P5 Advanced Performance Management Study Text 2014* BPP Learning Media 2014-06-01 The examining team reviewed P5 Study Text covers all the relevant ACCA P5 syllabus topics. It explores the principles of performance management and how they can be applied in a range of different organisations. Detailed case studies about how performance management issues are addressed in the real world will help build your understanding and reinforce learning.
