The City and the Parish: Drama in York and Beyond

Alexandra F. Johnston

2023-04-14 Collected Studies

CS1062 This volume brings

together a selection of the major articles of Alexandra F.

Johnston, which along with

similar volumes by the late

David Mills, Peter Meredith

and Meg Twycross makes up a

set of "Shifting Paradigms in

Early English Drama Studies".

Alexandra Johnston, the

founding director of the

research project, Records of

Early English Drama, is one of these four key scholars whose work has had a profound influence on the study of medieval and early modern English drama. This collection of essays focuses especially on the York plays: on the Mercers' documents that initiated the project itself; on the theology and christology of the plays; on the relationship between the plays and contemporary administrative bodies, both civic and national; and on the performance of the York plays in modern times. A further group of articles considers documentary evidence for the wide range of drama and mimetic ceremony in the Midlands and the West Country, reinforcing our understanding that these events took place predominately on a local parish level. The collection is rounded out with a survey of the immense changes that our reading of early English drama have undergone over the past half century.

Developing Preschool

Language Classrooms Paul E.

Quin 1990 This text is designed to assist in the replication of a successful classroom-home language intervention program for mildly to moderately language impaired preschool children. The first portion of the manual discusses the rationale and operation of the program. Provided in the second part are sample lesson plans which provide specific examples of the integration of language remediation targets into preschool activities. After an introductory chapter, a literature review examines a pragmatic approach to language intervention in the classroom. Appended to this chapter are resources on pragmatic skills. The next chapter considers the use of space, furniture, and learning materials in the classroom and includes a checklist for arranging and equipping a classroom. Staffing and training in the preschool language classroom are discussed next and samples of school newsletters and forms

for training and home visits provided. The next chapter addresses planning and scheduling of language intervention and is followed by a consideration of classroom management with guidelines for managing behavior, and a review of data collection in the classroom. Provided for each lesson plan in Part II is information on language targets, materials, and procedures. References accompany most chapters. (DB)

Arthurian Legends on Film and Television

Bert Olton
2008-10-23

The Arthurian legends are a crucial part of Western culture. With their enduring themes, archetypal characters, and complex plots, it is not surprising that the stories of Camelot should find their way into films and television programs. From the moody (*Excalibur*) to the looney ("Knighty Knight Bugs"), more than 250 entries give complete credits, synopses, and analyses.

Included are works based solely on Arthur and his literary origins and works that feature other figures, like Galahad, Percival, and the operatic favorites Tristan and Isolde. Also included are animated films, parodies like Monty Python's, films like *Indiana Jones and the Last Crusade* with Arthurian themes, and television series with Arthurian episodes such as *Babylon 5* and *MacGyver*. Operatic and dramatic works

recorded for film and television (like Camelot) are also covered. Appendices, bibliography and index.

Curriculum in the Early Years

Rosemary Rodger 2016-04-11

Now its fourth edition, *Planning an Appropriate Curriculum in the Early Years* offers a comprehensive guide for early years practitioners and students on how to plan and implement a suitable curriculum for the children in an Early Years setting. It examines the key roles and responsibilities of practitioners working in Early Years settings and those with responsibility for leading and managing provision for EYFS in primary

schools. Completely revised and updated in line with the Statutory Framework for the Early Years Foundation Stage, latest research evidence and OFSTED requirements, this book covers the following aspects of the Early Years including: what we mean by planning an appropriate curriculum in the early years; transition from nursery to school and into Year 1; defining quality learning and play in the early years assessment procedures and examples; integration of two-year-olds into school; the role played by parents and carers in children's learning and development; the ways in which vulnerable children are provided for; examples of planning material developed by practitioners. With case studies of good practice and questions for reflective practice and group work, this timely fourth edition will be welcomed by students and practitioners looking to provide high quality and effective learning experiences for the under-fives.

Practice in Primary Schools

Anne Edwards 1996 A guide to transforming traditional student teaching practices in primary school from "just another burden imposed on the teacher" to an active program of mentoring. Edwards (primary education, U. of Leeds) proposes that students learn best when supported by active mentors, outlining how learning teachers can serve as mentors and the development programs which can be institutionally implemented to support such a strategy. The author supplies case studies linking assessment, pedagogy, and research to practical mentoring activities.

Church Dogmatics The Doctrine of Reconciliation, Volume 4, Part 2

Karl Barth 2004-01-30 Described by Pope Pius XII as the most important theologian since Thomas Aquinas, the Swiss pastor and theologian, Karl Barth, continues to be a major influence on students, scholars and preachers today. Barth's theology found its expression mainly through his closely reasoned fourteen-part magnum opus, Die Kirchliche Dogmatik. Having taken over 30 years to write, the Church Dogmatics is regarded as one of the most important theological works of all time, and represents the pinnacle of Barth's achievement as a theologian. T&T Clark International is now proud to be publishing the only complete English translation of the Church Dogmatics in paperback.
