Syndia User's Guide Stanford University. Computer Systems Laboratory 1979 This report describes how to use the Syndia/Syngra system available at SU-SCORE. This system accepts a BNF-like grammar; specifications and automatically generates syntax diagrams on a Tektronix graphics terminal. Syndia is the major component of this system; Syndgra acts as an interface between Syndia and the SUDS2 graphics editor. Syndia performs no ambiguity or consistency checks on the BNF input. This report assumes that the reader is familiar with BNF and syntax diagram representations of grammars.
