Money Magic Frater U.:D.: 2011 It's amazing how many magical practitioners have trouble meeting their monetary needs. Certainly applied magic should allow us to improve our finances. Shouldn't magicians who are tired of poverty be able to use their magic to obtain wealth? Now, one of the world's most famous ceremonial magicians, Frater U[D], reveals full instructions for a variety of magical ways to obtain greater wealth in his eagerly awaited new book. Here he begins by placing money in its proper element (Air, not Earth!) and shows you how to create your own rituals to bring money. Exercises help you to untie the mental knots keeping you from success and free up the Mercurial energy of money so that it will flow into your life. This isn't a simplistic spellbook. Rather, it features all of the information, exercises, rituals, and real magical work that, with study and practice, can change your life.

High Magic II Frater U.:D.: 2008 Europe's best-known mage and contemporary occult author, Frater U[D], shares his extensive magical expertise in the companion volume to his highly acclaimed High Magic. Previously unavailable in English, High Magic II has been eagerly awaited by ceremonial magicians, mages, and Hermetic practitioners. This comprehensive guide explores a variety of magical topics--mirror magic, sigil magic, shamanism, magical orders, mudras, folk magic, and divination--in a modern, non-dogmatic way. The integrated, progressive approach of this book on high magic is designed to help the reader develop a holistic understanding of the underlying magical theories and a true mastery of the magical techniques. Themes in the text recur, focusing on different aspects of core topics but taking the reader further along each time, using the format proven effective in High Magic. High Magic II also delves into magic and yoga, magic in the Bible, the Kabbalah, forms of initiation, and the magic of ancient Egypt and the late Hellenistic period. Many provocative practices are addressed, including demonic magic and combat magic. Some of the techniques have never before appeared in an English-language book.

High Magic U. D. (Frater) 2005 Of course, Magic is Magic wherever. But Ceremonial Magic - with or without a k ending - is perceived as largely European in origin and practice. The Golden Dawn, Aurum Solis, O.T.O were European and even AMORC, B.O.T.A., G.B.G. were mostly European inspired. As valid as these esoteric orders were and are, they are at best schools

and the knowledge taught is now widely available. What is key is not the knowledge but the self-accomplishment that comes only through personal experience (otherwise known as "self-initiation"). The essence of Magic is a simple formula based on the exercise of Will, Imagination, and Gnosis or Magical Trance. It is a "technology" and must be mastered like any technology through understanding and practice. Like playing the piano, it takes discipline to continue practicing basic exercises until it all becomes second nature and can function as an art as well. "And, what for?" Not to perform tricks or miracles. Not to wear fancy robes and chant barbarous words. Not to reach high degrees with grand titles in a secret order. No, it is to transform and transmute your own self and thus to become more than you were, not merely to accelerate normal human evolution but to actually move beyond and be a co-creator. And to finally answer those questions: "Who am I? Where did I come from? Where am I going?" High Magic is an active program for self-discovery and Self-Realization. This book by a famed contemporary German magician self-instructs the student through a series of basic exercises and real magical practices that train the magician through a consistent program combined with examples and explanations. Each step is thorough without extravagance; the program is effective and entirely self-directed (as must be all real learning); the book is encyclopedic in depth and inclusive even of chaos and cyber magic. Tables and Charts simplify the learning process. The system starts with immediate immersion in ritual practice starting with the Kabbalistic Cross and Lesser Banishing Ritual of the Pentagram and moves through beginning to advanced levels of Practical Sigil Magic, Ritual Magic, Elemental Magic, the Greater Ritual of the Pentagram, Planetary Magic, the Hexagram Ritual, Mantra Meditation, the Magical Gaze, Magical Trance, the Pan Ritual, Money Magic, Talisman Magic, Moon Magic, Chaos Magic and Cyber Magic. In each case, practice is used to instruct - nothing is presented as "theory only." You will find everything analyzed, explained and justified with refreshing and truly uncommon common sense! The author fully dispels the myths and subterfuges of archaic magical orders and

explores the role of the Unconscious Mind, the issues of Religion and Mysticism, the nature of High and Low Magic, the function of Myth and the role of Drama in Ritual, the Magical Nature of Reality and Magical Perception, Dream Work in relation to Magical Training, the Magical Imagination and training for Visualization, Psychic Protection, Invocation and Evocation, the Calling and Movement of Energies, Charging, Paradigm Shifting, what is really means "to Keep Silent," the power of Intention & definition of Magical Goals, the ritual use of Symbols and Gestures, the power of Words, the Magician's Universe, the magical pronunciation of Hebrew Letters, the Magician's Tools, Mantric Sigils, the IAO formula, and much more. High Magic is as central to Western culture as are science, technology, the rule of law, democracy and the entrepreneurial economy. Its practice and application should be part of your daily life starting now.

Alchemically Stoned - The Psychedelic Secret of Freemasonry P.D. Newman 2017-06-21 P.D. Newman's bold and daring theory provides a radical interpretation of Masonic symbolism. In the tradition of Wasson, Hofmann and Ruck, in "The Road to Eleusis: Unveiling the Secret of the Mysteries" (1978), and Heinrich's "Strange Fruit: Alchemy, Religion, and Magical Foods" (1995), Newman suggests that practical psychoactive pharmacology, rather than philosophy, lies concealed in the root of some of our allegories and mysteries. Admitting to being more than a mere theoretician, Newman draws from his own personal experiences, and a wide range of sources, in presenting his theory in a logical manner, which merits consideration. - Arturo De Hoyos, 33* Grand Archivist and Grand Historian Ancient and Accepted Scottish Rite, Southern Jurisdiction
