Lesser-Known Languages of South Asia Anju Saxena 2008-08-22 The increasing globalization and centralization in the world is threatening the existence of a large number of smaller languages. In South Asia some locally dominant languages (e.g., Hindi, Urdu, Nepali) are gaining ground beside English at the expense of the lesser-known languages. Despite a long history of stable multilingualism, language death is not uncommon in the South Asian context. We do not know how the language situation in South Asia will be affected by modern information and communication technologies: Will cultural and linguistic diversity be strengthened or weakened as they become increasingly prevalent in all walks of life? This volume brings together areas of research that so far do not interact to any significant extent: traditional South Asian descriptive linguistics and sociolinguistics, documentary linguistics, issues of intellectual and cultural property and fieldwork ethics, and language technology. Researchers working in the areas of documentary linguistics and

language technology have become aware of each other in the last few years, and of how work in the other area could be potentially useful in furthering their own aims. Similarly, the insights of documentary linguistics are making their way into descriptive linguistics and sociolinguistics. However, the potential for synergy among these areas of research is almost limitless. This volume provides the reader, not so much with a do-it-yourself recipe for applying modern technology to the problem of language shift in South Asia today, but rather with some basic knowledge about the problems involved and some directions from which solutions could be forthcoming, a toolbox rather than a blueprint, for helping to shape the linguistic future of South Asia.

A Course in Nepali David Matthews 1998 This course, covering the full grammar and all constructions of modern Nepali, presents a full description of written and spoken Nepali, enabling students to understand, speak and read most types of Nepali encountered today.

A Foundation in Nepali Grammar Christopher Jay Manders 2007 This book is written for people who love life, for a classic romantic person with a tender heart and a strong feeling for a passionate and tender loving. For those forever young, whose lives are more than ordinary, but romantic with and fascinated by a loved one; which is present or absent. A weep for a lost one and the pursue of recovery. For those who love life, beyond the view of the normal existence. These are messages for the non-ordinary people, but for those special ones with emotional attachments, with high purity of love. For people with romantic involvement, to court, or to woo that special someone in his or her life. Because love is more than a word, it is a mysterious and magical power that involves everyone and changes our destinies forever. Love is a tender attachment between two lovers, which is so ardent, emotional, and with such strong fascination and beautiful feelings that eventually you will be the object of such passion. Yes, you will be enamored, charmed, captivated,

and in love with someone who is already out there looking for you; and when you look at that person, you will notice right away it's right there for you. You will be overcome in a swirl of intense desire, love, and passion, and you cannot do anything about it. Simply, it will be irresistible. Dan Vega

Colloquial Nepali G. G. Rogers 2006 Colloquial Nepali is a reprint of an excellent introduction to spoken Nepali. It is a very useful primer on the colloquial idiom of Nepali, for, while the formal and written variety of the language has received a great deal of attention from scholars, there is much less literature devoted exclusively to the spoken form even today. The first few chapters are devoted to the phonetics of Nepali sounds followed by lessons on grammar (along with English-Nepali translation exercises). Finally there is an extremely useful list of more than 1500 commonly used words in Nepali with, of course, their English translations. The author has not forgotten to introduce the learner to some of the more frequently used idioms and slang in Nepali. A very useful teach-yourself book on spoken Nepali.

Course in Nepali David Matthews 2013-01-11 Nepali has also been adopted by peoples of the Himalayan region who belong to different linguistic groups, and is now understood throughout the whole of Nepal, the Darjeeling region of West Bengal, Sikkim, Bhutan and parts of Tibet, where it has functioned as a language of trade and commerce for well over two centuries. The aim of this course, which covers the whole grammar and all the constructions of modern Nepali, is to present a full description of both the spoken and written forms of modern standard Nepali, and to enable the student to understand, speak and read most types of Nepali he or she is likely to encounter. The earlier lessons concentrate mainly on the spoken style, and the conversation passages whilst the later lessons concern religious, political and literary topics. Nepal is a land which already provides great enjoyment to the increasing number of visitors from the west. A knowledge of the language leads to a deeper understanding of the culture of its people, and the object of A Course in Nepali is to provide the means of learning it without much difficulty. Earlier editions of this course have been the standard book for students at the School of Oriental and African Studies, and it is without question the established market leader.
