Automotive Global Value Chain

Wilson Kia Onn Wong

2017-08-09 Today, some suppliers have grown increasingly powerful and in certain cases, earn revenues that rival or even exceed that of their automaker clients. In the pre-globalisation period, automakers wielded absolute power over their significantly smaller suppliers. This book reveals the upending of this relationship, with the gradual shift in the balance of power from automakers to their suppliers in this era of globalisation. The book examines how suppliers in the global tyres, seats, constant velocity joints (hereafter 'CVJs'), braking systems and automotive semiconductor industries have evolved into powerful oligopolies through a mix of acquisition and organic growth strategies. It also highlights how joint ventures could be strategically deployed

as springboards to acquisition, as they enable firms to familiarise themselves with their partners' markets and operations. Moreover, the book analyses the disruption stirred by the entry of well-resourced technology titans into this industry and their inevitable clash with the traditional incumbents. This book is an invaluable reference for anyone interested in learning more about the automakers' and now their suppliers' relentless quest to create market-dominating intelligent driving systems.

Hot Stamping of Ultra High-
Strength Steels Eren Billur
2018-10-05 Providing a
comprehensive overview of hot
stamping (also known as 'press
hardening'), this book
examines all essential aspects
of this innovative metal
forming method, and explores
its various uses. It investigates
hot stamping from both
technological and business

perspectives, and outlines
potential future developments.
Individual chapters explore
topics such as the history of
hot stamping, the state of the
art, materials and processes
employed, and how hot
stamping is currently being
used in the automotive industry
to create ultra-high-strength
steel components. Drawing on
experience and expertise
gathered from academia and
industry worldwide, the book
offers an accessible resource
for a broad readership
including students,
researchers, vehicle
manufacturers and metal
forming companies.
