The Curious Case of Dr. Castaneda's Twelve Pages of Field Notes F. Lawrence Fleming 2023-01-05 My previous book about the author Carlos Castaneda (Making Sense of the Life and Works of Carlos Castaneda, F. Lawrence Fleming, published 2018.) was an attempt to show that, although evidence appears to show that Castaneda did actually work with a Yaqui Indian sorcerer, the publications concerning his fieldwork were largely fraudulent. In this present book I shall attempt to show what sort of person the character "don Juan" in the books by Carlos Castaneda may have been in real life, and how his remarkable personal philosophy can be inferred from what I assert is Castaneda's grossly corrupted version of the teachings of Don Juan in his published works.

Multidimensional Contextual Practice: Diversity and Transcendence Krishna L. Guadalupe 2005 MULTIDIMENSIONAL CONTEXTUAL PRACTICE: DIVERSITY AND TRANSCENDENCE offers a comprehensive perspective on human diversity. I was Carlos Castaneda Martin Goodman 2001 "A marvelous book with rich teachings that particularly touch the heart of death -- and, thus, life itself."--Thom Hartmann, author of The Last

Hours of Ancient Sunlight Carlos Castaneda comes back from the dead in a true-life spiritual adventure story set in the French Pyrenees, Machu Picchu, the Peruvian Amazon, and the American Southwest. Four months after his death, the world-renowned writer, anthropologist, and mystic Carlos Castaneda turns up in the French Pyrenees. He meets with writer Martin Goodman. His purpose? To lead Martin beyond the fear of death and the confusions of mortality, and to offer a clearer understanding of the ultimate wisdom -- the wisdom to live the rest of our days in full and conscious harmony with the living earth. Martin Goodman is a gifted storyteller who has infused I Was Carlos Castaneda with literary verve and humor. When, at their first encounter, an incredulous Goodman confronts Castaneda with reports of his recent death, Castaneda replies wryly, "Details. . . mere details." And so the story begins.

The Active Side of Infinity Carlos Castaneda 1999-12-22 "Ordinarily, events that change our path are impersonal affairs, and yet extremely personal. My teacher, don Juan Matsus, said this is guiding me as his apprentice to collect what I considered to be the memorable events of my life.... Don Juan described the total goal of the shamanistic knowledge that he handled as the preparation for facing the definitive journey: the journey that every human being has to take at the end of his life. He said that what modern man referred to vaguely as life after death was, for those shamans, a concrete region filled to capacity with practical affairs of a different order than the practical affairs of daily life, yet bearing a similar functional practicality. Don Juan considered that to collect the memorable in their lives was, for shamans, the preparation for their entrance into that concrete region, which they called the active side of infinity." In this book written immediately before his death, anthropologist and shaman Carlos Castaneda

gives us his most autobiographical and intimately revealing work ever, the fruit of a lifetime of experience and perhaps the most moving volume in his oeuvre.

[The Scientification of Religion](#) Kocku von Stuckrad 2014-05-21 The enigmatic relation between religion and science still presents a challenge to European societies and to ideas about what it means to be 'modern.' This book argues that European secularism, rather than pushing back religious truth claims, in fact has been religiously productive itself. The institutional establishment of new disciplines in the nineteenth century, such as religious studies, anthropology, psychology, classical studies, and the study of various religious traditions, led to a professionalization of knowledge about religion that in turn attributed new meanings to religion. This attribution of meaning resulted in the emergence of new religious identities and practices. In a dynamic that is closely linked to this discursive change, the natural sciences adopted religious and metaphysical claims and integrated them in their framework of meaning, resulting in a special form of scientific religiosity that has gained much influence in the twentieth century. Applying methods that come from historical discourse analysis, the book demonstrates that religious semantics have been reconfigured in the secular sciences. Ultimately, the scientification of religion perpetuated religious truth claims under conditions of secularism.

The Active Side of Infinity Jörgen I Eriksson 2020 More than 50 years after Carlos Castaneda's first book and 20 years after his death the interest in his legacy is growing. The 12 books on his apprenticeship with the Yaqui sorcerer Juan Matus contain fabulous stories but most of all an abundance of shamanic wisdom. According to Jörgen I Eriksson, who has worked in the Nordic shamanic tradition for 40 years, Castaneda's works represent deep shamanism from which present-day students of shamanism has much to learn. But it is necessary to keep Castaneda at arm's length. In this book Eriksson tries to extract the very best of Castaneda and in a way liberate Castaneda from Castaneda.
