INCRE 2020 Achmad Gunaryo 2021-05-25 We are proud to present the Proceedings of the 2nd International Conference on Religion and Education 2020 (INCRE 2020). The Center for Research and Development of Ministry of Religious Affairs of Republic of Indonesia together together with other International organizations: International Islamic University Malaysia (IIUM), Sultan Sharif Ali Islamic University (UNNISA) of Brunei, State Islamic University of Syarif Hidayatullah Jakarta, and Asosiasi Ma'had Ali Indonesia (AMALI) hosted and organized the second annual conference in the general field of education and religion. The conference provided a forum for education professionals engaged in research and development to share ideas, interact with others, present their latest works, and strengthen the collaboration among academics, researchers and professionals. It was a single-track, highly selective conference attended by leading experts from academia, industry, and government. Due to the Covid-19 Pandemic, we organized the conference virtually in 2 days event 11-12 November 2020 with 4 keynote speakers: Prof Prof Azyumardi Azra from State Islamic University of Syarif Hidayatullah Jakarta, Prof Abdul Wahab Abdul Rahman from International Islamic University Malaysia, Prof. Achmad Gunaryo from Research and Development, Ministry of Religious Affairs, Indonesia, and Dr. Syamsi Ali from Jamaica Muslim Center, New York USA. The proceeding consisted of 34 accepted papers from the total of 82 submission papers. The proceeding consisted of 10 main areas of education and religion. They are: Modernizing madrasas in global contexts, Teacher and Education development, Student abilities in religion education, Education and Technology, World Class University in Indonesian religious university, Local wisdom and religion education, Citizenship in religion education, Religion and character education, Moderism in religion and education, and Islamic boarding school stretching. All papers have been scrutinized by a panel of reviewers who provide critical comments and corrections, and thereafter contributed to the improvement of the quality of the papers. We strongly believe that INCRE 2020 conference has become a good forum for all researcher,

developers, practitioners, scholars, policy makers, especially post graduate students to discuss their understandings of current processes and findings, as well as to look at possibilities for setting-up new trends in Education and Religion. We also expect that the future INCRE conference will be as successful and stimulating, as indicated by the contributions presented in this volume.

Teaching ICT Carl Simmons 2009-03-26 Reflective practice is at the heart of effective teaching, and this book helps you develop into a reflective teacher of ICT. Everything you need is here: guidance on developing your analysis and self-evaluation skills, the knowledge of what you are trying to achieve and why, and examples of how experienced teachers deliver successful lessons. The book shows you how to plan lessons, how to make good use of resources and how to assess pupils' progress effectively. Each chapter contains points for reflection, which encourage you to break off from your reading and think about the challenging questions that you face as a new teacher. The book comes with access to a companion website, www.sagepub.co.uk/secondary, where you will find: - Videos of real lessons so you can see the skills discussed in the text in action - Links to a range of sites that provide useful additional support - Extra planning and resource materials. If you are training to teach ICT this book will help you to improve your classroom performance, by providing you with practical advice, but also by helping you to think in depth about the key issues. It also provides examples of the research evidence that is needed in academic work at Masters level, essential for anyone undertaking an M-level PGCE.

Teaching for Numeracy Across the Age Range Peter Stuart Westwood 2021-08-10 This book provides an introduction to what it means to be numerate, and how numeracy can best be developed and nurtured in children and in adults. It also presents a cohesive coverage of numeracy development from early childhood to adulthood. This book draws on

international research and practice to provide a comprehensive overview on the topic. It depicts and draws connections with the National Curriculum in the United Kingdom, the Australian Curriculum, and the Common Core State Standards in the United States. This book identifies skills and concepts involved in achieving functional numeracy, and provides practical advice on effective teaching, learning and assessment. It serves as a valuable guide to educators who teach mathematics in primary and secondary schools, but who are not specifically trained in the subject.
