

Attachment Across The Life Cycle

Attachment theory, in developmental psychology, is the theory that humans are born with a need to form a close emotional bond with a caregiver. Jan 23, 2026 · Attachment theory is centered on the emotional bonds between people and suggests that our earliest attachments can leave a lasting mark on our lives. Within attachment theory, attachment refers to an affectional bond or tie between an individual and an attachment figure, usually a caregiver or guardian. Attachment is the emotional bond that forms between the infant and the caregiver, and it is how the helpless infant gets primary needs met. It then becomes an engine of subsequent social,... May 20, 2025 · Attachment theory explains how humans form strong emotional bonds with key individuals, starting in childhood, to help manage stress, fear, and uncertainty. These ...
