## **ACADEMIC WORD ENGINE COMPLETE**

### **C1/C2 VOCABULARY SYSTEM PANDE NABAL**

KISHORE 2025-12-04 Academic Word Engine:

Complete C1/C2 Vocabulary System is a premium self-study framework for global professionals who must break the B2 plateau and operate confidently in academic and high-stakes environments. Designed for EF SET C1, IELTS 7+, OET B, and TOEFL 24 performance, it engineers vocabulary, cohesion, and writing as an integrated system rather than disconnected word lists. Built by an engineer-educator, this book deconstructs the "Global Mobility Gap" and shows exactly how to upgrade from functional English to internationally operational English. Learners move step-by-step through Academic Word List mapping, morphological root systems, precision prefixes and suffixes, cohesion matrices, and the Vocabulary-in-Context (ViC) framework so that every new word has a clear register, function, and deployment environment. Across six modules, you will master analytical verb clusters, hedging and stance, adverbial intensifiers and mitigators, metaphorical academic phrases, and domain-specific registers for healthcare, engineering, business, and policy. Dedicated units translate these tools directly into exam performance, targeting lexical band descriptors, argumentative writing for Task 2-style prompts, speaking fluency, and long-term maintenance protocols that prevent vocabulary decay. Academic Word Engine is written for ambitious nurses, engineers, IT professionals, managers, and graduate-school applicants from India, Africa, and wider Asia who are tired of expensive coaching and shallow tips. With its engineering logic, cognitive-linguistics foundation, and rigorous practice architecture, it turns advanced vocabulary into a reliable engine for global mobility, professional credibility, and C1/C2-level academic authority.
