*Building Electric Guitars*

Martin Koch 2001-08 "Explains step by step, with almost 600 photos and more than 100 illustrations, how to build an electric guitar"--Back cover

The English Catalogue of Books ... Sampson Low 1873

**Learn Guitar From Beginner to Your 1st Band** John A.

MacLachlan 1998 Learn Guitar From Beginner To Your 1st

Band has been developed to take total, complete beginners to music and the guitar to a high enough standard to join a band or play with other musicians. This means placing

equal emphasis on developing technique and basic musicianship whilst also

developing YOUR creativity - a subject mysteriously avoided by most tutor books. The

accompanying audio tracks (available free and without

need to register at:

[www.thinkinnote.com](http://www.thinkinnote.com))

demonstrates every stage using carefully produced tracks that allow you to develop at your own pace whilst feeling like part of the band from the very beginning. The book is divided into two sections, the white section is "The Knowledge" and the blue or middle section is "The Method". You can dive into "The Knowledge" at any point and read about a given subject; technique, scales, chords etc. and when you're in the mood to study you turn to "The Method" to show you how to put it all together. All tracks previously included with the print book as a CD can now be accessed free of charge at [www.thinkinnote.com](http://www.thinkinnote.com). This site has been completely updated in 2023 and requires no logging in or registration, simply go to the site and select your book from the Books dropdown and all tracks will be available.

*The 5 Lesson Bass Guitar Method* Gary U Petrin  
2020-10-05 The 5 Lesson Bass Guitar Method is an "Interactive" eBook designed to familiarize beginners with five very important aspects of playing the bass guitar. An effective and simplified method that will help you get started playing the bass guitar quickly. Lessons include: Learning the names of the notes and strings, basics of reading tablature, basic walks / runs / fills, root notes, picking exercises, scale patterns, and some final notes on equipment, practice tips and suggestions. There are links to numerous video clips, handouts, and information to help create an "Interactive" experience. Read the information in the booklet, and click on the links to view the video lessons. This is the best method for beginners that have the ambition to move on to bigger and better things on the bass guitar. Get your copy now!
