Behind Bars at New Bilibid Prison Raymund E. Narag 2020 "This comprehensive report analyzes conditions of the Philippine Bureau of Corrections (BuCor) and its flagship institute, the New Bilibid Prison (NBP). Utilizing a holistic perspective, the monograph documents the interrelatedness of structural, organizational, and cultural characteristics of the penal facility. Specifically, it documents how prison officers and inmates have to deal with the structural limitations of their work environment and the pains of imprisonment, respectively, the different organizational coping mechanisms that have arisen, and the cultural narratives that prison officers, inmates, and volunteers employ to justify their various behaviors. Qualitative narratives from prison guards, inmates, and volunteers suggest the creation of informal coping structures such as the practices of mayores, pangkat, VIP, and kubol, as a response to structural problems of overcrowding, lack of personnel, and resource deficiency. These informal structures have short-term positive effect but long-term negative consequences that perpetuate a predatory and corrupt style of penal management. Using the mandate of the Modernization Law of the Bureau of Corrections, an integrated reform agenda that is congruent with the principles of effective correctional management is presented. This monograph also outlines a vision of multiple 2000-inmate population Regional Prisons, in lieu of the present 22,000-inmate population in NBP."--Abstract.

FIDIC Contracts in Asia Pacific Donald Charrett 2021-11-29 FIDIC contracts are the most widely used contracts for international construction around the world and are used in many different jurisdictions, both common law and civil law. For any construction project, the General Conditions of Contract published by FIDIC need to be supplemented by Particular Conditions that specify the specific requirements of that project subject to the relevant laws. FIDIC Contracts in Asia Pacific provides readers with detailed guidance and resources for the preparation of the Particular Conditions that will comply with the requirements of the applicable laws for a number of the jurisdictions in which FIDIC contracts are used. The laws that apply to the governing law of the contract, construction works and dispute resolution in each jurisdiction are identified. This book offers chapters on the FIDIC Conditions of Contract for Underground Works, and the perspective of a bilateral aid agency on the use of FIDIC contracts. Each jurisdiction features an outline of its construction industry and information on the impact of Covid-19 on both the execution of construction projects and the operation of construction contracts. This book is essential reading for construction professionals, lawyers and students of construction law using FIDIC contracts.

Waking the Asian Pacific Co-operative Potential Morris Altman 2020-06-21 Replete with case studies, *Waking the Asian Pacific Cooperative Potential* applies a novel theoretical framework to aid in understanding meaningful change in cooperative firms, mutual firms, collectives, and communes, focusing in particular on the underexamined Asia Pacific region. It explores the common, albeit competing, objectives of transformational cooperatives that deliver a range of social benefits and corporative coops where the cooperative exhibits the characteristics of a competitive investor firm. The book provides examples of successful cooperatives in eleven countries across the Asia Pacific and reviews the theoretical framework of cooperatives, including issues pertaining to socio-economic, politico-legal, and domestic and international factors. *Waking the Asian Pacific Co-operative Potential* provides early-career researchers and graduate students with a systematic resource of cooperatives in the Asia Pacific, highlighting core lessons from case studies regarding the ideal role of cooperatives in a modern economy and on the enabling factors

of the role of the state, the market potential for scale-up, the mitigation of poverty, and civil society. - Provides numerous case studies drawn from successful co-operative organizations across the Asia Pacific region - Advances a theoretical framework to help readers access and understand the reasons for co-operative success in the Asia Pacific region - Develops tools for practitioners to establish effective co-operatives and restructure them to optimal goals

Public-Private Partnership Monitor: Philippines Asian Development Bank 2020-12-01 This publication presents a detailed overview of the current state of the public-private partnership (PPP) environment in the Philippines. In over three decades, the country developed a robust public-private partnership (PPP) enabling framework through the Build-Operate-Transfer Law of 2012 and the PPP Center. Among developing member countries of the Asian Development Bank, the Philippines has a relatively mature market that has witnessed 116 financially closed PPPs. Under the government's 2017-2022 Development Plan that has an infrastructure investment target of \$180 billion, PPPs are expected to play a pivotal role in financing national and subnational infrastructure investments. With a pipeline of 37 PPPs, the government is taking various steps to further improve the environment for PPPs.

Public-Private Partnership Monitor Asian Development Bank 2017-11-01 The first edition of the Public-Private Partnership (PPP) Monitor tracks the development of the PPP business environment as well as the challenges of doing PPPs in nine of the developing member countries (DMCs) of the Asian Development Bank (ADB): Bangladesh, the People's Republic of China, India, Indonesia, Kazakhstan, Papua New Guinea, the Philippines, Thailand, and Viet Nam. It is divided into four main categories: Regulatory Framework, Institutional Capacity for Implementation, PPP Market Maturity, and Financial Facilities. The PPP Monitor aims to increase the level and quality of private sector participation in infrastructure in the ADB's DMCs by serving as an active platform for dialogue between the public and private sectors.
