Even More Brain-powered Science Thomas O'Brien 2011  
The third of Thomas O'Brien's books designed for 50Co12 grade science teachers, *Even More Brain-Powered Science* uses questions and inquiry-oriented discrepant events, experiments or demonstrations in which the outcomes are not what students expect, to dispute misconceptions and challenge students to think about, discuss, and examine the real outcomes of the experiments. O'Brien has developed interactive activities, many of which use inexpensive materials, to engage the natural curiosity of both teachers and students and create new levels of scientific understanding."
