2019-03-07 This series of books

collects a diverse array of work

that provides the reader with

theoretical and applied

information on data analysis

methods, models and

techniques, along with

appropriate applications.

Volume 2 begins with an

introductory chapter by Gilbert

Saporta, a leading expert in the

field, who summarizes the

developments in data analysis

over the last 50 years. The

book is then divided into four

parts: Part 1 examines

(in)dependence relationships,

innovation in the Nordic

countries, dentistry journals,

dependence among growth

rates of GDP of V4 countries,

emissions mitigation, and five-

star ratings; Part 2 investigates

access to credit for SMEs,

gender-based impacts given

Southern Europe's economic

crisis, and labor market

transition probabilities; Part 3

looks at recruitment at

university job-placement

offices and the Program for

International Student

Assessment; and Part 4

examines discriminants, PageRank, and the political spectrum of Germany.

The Teaching of History Paul Klapper 1926 "The Teaching of History" seeks to describe a system of teaching within the social environment that will contribute significantly toward the development of civic-mindedness in young people. The development of civic intelligence, that may prompt socialized behavior, is consistently employed as the standard to determine the contents of the book, the character of the discussions, and the color of the conclusions. This text presents a detailed study of the important problems that arise in teaching history, civics, and current social events in the elementary grades and junior high.
