Modern comic book and graphic novel artists have created visual interpretations of Beowulf for decades, both illustrating and altering the classic story to pull out new themes. This book examines the growing canon of Beowulf comic books and graphic novels since the 1940s, and shows the remarkable emergence of new traditions--from re-envisioning the medieval look, to creating new plotlines, and even to transforming his identity. While placing Beowulf in a fantastical medieval setting, a techno-dystopia of the future, or modern-day America, artists have appropriated the tale to comment on social issues such as war, environmental issues, masculinity, and consumerism. Whether Beowulf is fighting new monsters or allying with popular comic book superheroes, these artists are creating a new canon of illustration that redefines Beowulf's place in our culture. *Deadpool Kills The Marvel Universe One Last Time* Cullen Bunn 2025-12-03 Cullen Bunn and Dalibor Talaji? reunite to complete their Deadpool Kill-ogy - and this time the Marvel Multiverse is in Wade Wilson's sights!
