SRA Open Court Reading

2002 assessment is comprised of Lesson Assessment and Benchmark Assessment. Lesson Assessment tests students on material covered in the program weekly. A score of 80% or higher indicates student mastery. These assessments offer the opportunity for summative assessment as students are graded on their knowledge of previously-taught skills and concepts. Benchmark Assessment features tests of equivalent difficulty that sample the yearlong curriculum to gauge student growth. Improving scores on these assessments indicate students increasing mastery of the content. This assessment acts as a universal screener of

student growth. Progress is measured against benchmark cutoff scores. Cutoff scores rise as student knowledge grows and help pinpoint out gaps between student achievement and the curriculum-based goals. These two assessments offer valuable formative data as the frequency of the assessments allows for reliable progress monitoring data that can be used to ensure that all students progress.

A Tribute to Anne Frank Anna G. Steenmeijer 1970 "Collected here are letters and photographs representing the most poignant and meaningful responses Otto Frank has received since the publication of his daughter's remarkable work. Her moving portrait of the suffering and deprivation of war and of the indomitable human spirit that transcends every hardship...[has elicited responses] universal in scope: works of art dedicated to her memory, articles examining the achievement and importance of her work, and personal letters-most of them previously unpublished- from national

leaders and ordinary citizens of virtually every country on earth"--from front jacket flap.
