Earth Science Robert John Foster 1982
The Art of Teaching Science Jack Hassard 2005 This is a core teaching textbook designed for the professional development of middle and high school science teachers. Differing from other texts in its constructivist approach to learning and teaching, it provides meaningful learning experiences and connections with the most recent research and understanding of science teaching. Each chapter is organized into two sections : the first focuses on the content of the major theme of the chapter, while the second consists of a newspaper-like feature called The Science Teaching Gazette, containing a variety

of strategies for extending the learning process. Packed with learning tools, hands-on inquiry activities, case studies, think pieces, and interviews with teachers around the world, this is a remarkably comprehensive textbook designed to prepare a new cadre of science teachers. (Midwest).

Remote Sensing Applications in Environmental and Earth System Sciences Nicolas R. Dalezios 2021-05-11 Remote Sensing Applications in Environmental and Earth System Sciences is a contemporary, multi-disciplinary, multi-scaling, updated, and upgraded approach of applied remote sensing in the environment.

The book begins with an overview of remote sensing technology, and then explains the types of data that can be used as well as the image processing and analysis methods that can be applied to each type of application through the use of case studies throughout. Includes a wide spectrum of environmental applications and issues Explains methodological image analysis and interpretation procedures for conducting a variety of environmental analyses Discusses the development of early warning systems Covers monitoring of the environment as a whole - atmosphere, land, and water Explores the latest remote sensing systems in environmental applications This book is an excellent resource for anyone who is interested in remote sensing technologies and their use in Earth systems, natural resources, and environmental science.
