Case Problems in International Finance W. Carl Kester 1993 This Harvard Casebook includes 40 cases covering a range of major

topics in international finance. It can be used alone or with a core text suitable for an international finance course and the cases are consistent with the growing demand for the international coverage in MBA programmes. The cases stimulate critical thinking, active discussion, analysis and decision making, and most of them describe actual administrative situations. Lotus templates use financial statements from 10 cases so students can manipulate data to analyze information, and in text explanations provide supplemental and background information.

Programmable Devices and Systems (PDS 2000) Vilém Srovnal 2000 Paperback. The IFAC Workshop on Programmable Devices and Systems (PDS) started in the middle of the nineties in Poland. The organisers believe that in the area of programmable devices and systems there are some problems specific to them, which sufficiently justifies the decision to organise the PDS 2000 IFAC Workshop. The Workshop's main objective is to provide a forum to present the latest research results and experiences in the area of the design and application of programmable devices and systems and a forum to discuss the current status and future trends of this particular branch of the programmable

devices in measurement, control, and computer science.
