Solid food is not in liquid form, especially when given to babies or people who are ill: You use solid to describe something such as the basis for a policy or support for an organization when it is strong, because it has been developed carefully and slowly. A solid metal or colour is pure and does not have anything else mixed together with it. Unlike a gas or liquid, a solid has a fixed shape, and unlike a gas, a solid has a fixed volume. In most solids (with exceptions such as glass), the molecules are arranged in crystal lattices of various sizes. 13.ADJ You use solid to describe something such as the basis for a policy or support for an organization when it is strong, because it has been developed carefully and slowly. Physics having relative firmness, coherence of particles, or persistence of form, as matter that is not liquid or gaseous: solid particles suspended in a liquid. 1. a substance that is solid at room temperature and pressure 2. the state in which a substance has no tendency to flow under moderate stress; resists forces (such as compression) that tend to deform it; ... The meaning of SOLID is being without an internal cavity. How to use solid in a sentence. Solid-state physics is the study of rigid matter, or solids, through methods such as solid-state chemistry, quantum mechanics, crystallography, electromagnetism, and metallurgy. A solid, as opposed to a liquid or gas, has a size and shape to it. It doesn't flow like water or disappear into the air.
