Understanding Feminism Peta Bowden 2014-12-05 "Understanding Feminism" provides an accessible guide to one of the most important and contested movements in progressive modern thought. Presenting feminism as a dynamic, multi-faceted and adaptive movement that has evolved in response to the changing practical and theoretical problems faced by women, the authors take a problem-oriented approach that maps the complex strands of feminist thinking in relation to women's struggles for equal recognition and rights, and freedom from oppressive constraints of sex, self-expression and autonomy. Each chapter focuses on a different cluster of concerns, demonstrating key moves in second-wave feminist thought, as well as some of the diversity in response-strategies that encompass both socio-economic and cultural-symbolic concerns. This approach not only shows how central feminist insights, theories and strategies emerge and re-emerge across different contexts, but makes clear that far from being 'over', feminism remains a vital response to the diverse issues that women (and men) find pressing and socially important.

Pacifism, Politics, and Feminism 2019-04-09 Pacifism, Politics, and Feminism: Intersections and Innovations discusses a) how feminist analyses allow for and encourage the re-conceptualization of concepts and ideas once thought familiar from traditional ethical and political philosophy, and b) traditional political topics and issues through pacifist and feminist lenses. The chapters that focus on the former explore the possibility of "queering" such concepts as autonomy, violence, resistance, peace, religion, and politics, while the chapters that focus on the latter bring feminist and pacifist sensibilities and arguments to bear

on classic political questions such as when and how violence and war are justified, the appropriateness of various responses to climate change, and the correct way to engage with such topics and themes in educational, institutional settings. Contributors are David Boersema, Barrett Emerick, Tamara Fakhoury, Jane Hall Fitz-Gibbon, William C. Gay, Jennifer Kling, John Lawless, Megan Mitchell, and Harry van der Linden.

Empire of Sacrifice Jon Pahl 2012-06 It is widely recognized that American culture is both exceptionally religious and exceptionally violent. Americans participate in religious communities in high numbers, yet American citizens also own guns at rates far beyond those of citizens in other industrialized nations. Since 9/11, United States scholars have understandably discussed religious violence in terms of terrorist acts, a focus that follows United States policy. Yet, according to Jon Pahl, to identify religious violence only with terrorism fails to address the long history of American violence rooted in religion throughout the country's history. In essence, Americans have found ways to consider blessed some very brutal attitudes and behaviors both domestically and globally. In *Empire of Sacrifice*, Pahl explains how both of these distinctive features of American culture work together by exploring how constructions along the lines of age, race, and gender have operated to centralize cultural power across American civil or cultural religions in ways that don't always appear to be "religious" at all. Pahl traces the development of these forms of systemic violence throughout American history, using evidence from popular culture, including movies such as *Rebel without a Cause* and *Reefer Madness* and works of literature such as *The Narrative*

of the Life of Frederick Douglass and The Handmaid's Tale, to illuminate historical events. Throughout, Pahl focuses an intense light on the complex and durable interactions between religion and violence in American history, from Puritan Boston to George W. Bush's Baghdad.

Confucian Ren and Feminist Ethics of Care Lijun Yuan 2019-05-28 The rehabilitation of Confucian tradition raised new challenges to Chinese feminist thinkers. Can a Confucian ideal of reciprocity help women realize their equality? What is the hope for Chinese women seeking a social ideal of equality given the growing gender gap in the current economic development of China? Yuan argues Confucianism cannot help unless it is integrated with feminism. In this book, Yuan explores why gendered stratifications perpetuated so deeply in today's China through the influences of Confucian cultural tradition, but reading early Confucian texts as a cosmological vision of Ren with Dao and ontological oneness as a whole that is the unity of heaven, earth, and humanism, we might reclaim Confucian egalitarian aspects to develop its openness for gender equity with integration of feminist critical care ethics. Throughout the book, Yuan provides multiple perspectives of comparison: relational self vs. power differentials, gender roles differences vs. political demand for equality, and individual reciprocity vs. connection based reciprocity, etc. to embrace inclusive methodology

and caring democracy. We see a great hope to break through stereotypes of binary thinking of Minben (people oriented) and Minzhu (autonomous democracy), gender division of labor, reason and emotion, etc. Yuan argues we should integrate feminist critical thoughts of global justice/care with early Confucianism, since both traditions emphasize caring relationships in humanity and interdependency between social individuals within and beyond their communities in a global scale. Importantly, the integration enlarges our philosophical visions of how cultural traditions can be undeniable sources for strengthening contemporary social ideas of humanity, democracy, equality, and freedom for all.
