Nostradamus Jack Manuelian 1996 According to the author, who has spent many years translating the original works of the most famous seer of all time, humankind could soon find itself plunging headlong into a holocaust whose destruction could well be of planetary proportions. Manuelian believes that the present situation in the world -- Nationalism vis a vis Globalism; the resurgence of neo-Fascism and Imperialism; the rise of Islamic Fundamentalism; the prevalent economic woes all over the world; ethnic conflicts and regional wars -- are all reminders of a precarious world that is teetering and tottering dangerously and that the coming years until the turn of the century could be the most critical in the overall life of the planet.

The Divine Blueprint Robert Perala 1998

The Uganda Cult Tragedy Bernard Atuhaire 2003 In March 2000, more than 500 members of religious cult, The Movement for the Restoration of the Ten Commandments, succumbed to a blazing inferno in the remote hills of southwest Uganda. Over the next few days, locals uncovered hundreds of additional bodies in mass graves across the countryside, upping the death count and making it the world's second largest ritual mass suicide. Seeking to shed light on these largely underreported events and the cult psyche in general, this private investigation of the mass graves uncovered in Uganda documents the highly dangerous and rapidly growing cult phenomenon. Through interviews with former cult members, this survey examines the growth of The Movement for the Restoration of the Ten Commandments, why the cult rooted itself so firmly in Uganda, what it means to be a member of a cult, and how this specific movement passed unnoticed by authorities.

The Casitians Return Michelle Murrain 2011-04-04 In The Casitians Return, life on Earth changes forever when aliens of human origin arrive with a startling new mandate, and the technology to enforce it. The aliens are here — and they are us. Or rather, they are human beings from another star system who have come to reunite the two branches of humanity, whether we like it or not. These aliens (who call themselves Casitians since their planet, Casiti, is casi tierra, or “almost Earth,”) are mandated by the Galactic Council to make earth a more enduring, peaceful and sustainable community — not so much for people, but for dolphins, the true galactic citizens. Predictably, many Earth humans resist, and the Casitians unveil a surprising solution: Earth humans are given the option to migrate to a whole new planet. There is Joel, a SETI scientist, who is first denounced, then vindicated when he discovers an alien signal. Marianne, a whip-smart programmer, is chosen as the first contact, and has to juggle the realities of telling the world as she

is also emotionally drawn to the mysterious Casitian, Ja'el. Follow them and a whole host of Earth and Casitian characters in this engaging exploration of what might happen when humans meet ... ourselves.

The End of Time Damian Thompson 1998 Damian Thompson examines the roots of millennial beliefs and its often unrecognized role in the development of modern society. He seeks to answer a number of surprising question, such as: Why to calendar changes have such a profound effect upon the human psyche? Why does the Catholic church attach such mystical significance to the year 2000? And why do the disembodied spirits channeled by New Age mediums point to the end of this millennium as a time of astonishing earth changes?

Earth Awakening Sharon Stewart 2020-01-14 A compilation of previously released channelings by Ivo of Vega, Ashtar Sheran, Athena and Adama of Telos, as channeled by Astral Incarnate and Lightworker Sharon Stewart. Sharon's frank questioning and her team's loving provision of information (Light) make this book a must read for all.

Religious Seekers and "finding a Spiritual Home" Thomas Kingsley Brown 2000

The Cumulative Book Index 1905 A world list of books in the English language.

Encyclopedic Sourcebook of Ufo Religions James R. Lewis 2003-11 The macabre mass suicide by adherents of the Heaven's Gate Cult in 1997 was shocking and difficult to comprehend for most outsiders. Their bizarre mindset, which mixed New Age religion with belief in extraterrestrial visitation, struck many as unique. In fact, as the contributors to this intriguing study show, the belief in alien contact has had religious overtones since the first purported sighting of an unidentified flying object (UFO) in 1947. Moreover, the religious dimensions of the UFO phenomenon may be the key to understanding the widespread appeal of this modern craze. An expert in new religions, Professor James Lewis has here brought together twenty insightful articles that cover the many variations of UFO-based religions. What the contributors demonstrate is that there are persistent and salient themes underlying the diversity of beliefs centered on the UFO phenomenon. Harkening back to theosophy, many groups have interpreted UFO sightings and alleged contacts as attempts by alien ambassadors from a more advanced civilization to bring spiritual enlightenment to Earth, where humanity is seen to be floundering in ignorance. The extraterrestrial message is usually channeled through a charismatic human leader, who then mobilizes a group around this New Age "revelation." The Encyclopedic Sourcebook of UFO Religions discusses the histories and beliefs of prominent UFO-based sects; looks at group dynamics and other sociological factors; and presents selections from the unusual literature of the various groups. This revealing and disturbing study shows that there is much more to the UFO phenomenon than simple curiosity about the possibility of life on other planets.

Half a century after the Doomsday Battle, the uneasy balance of Dark Forest Deterrence keeps the Trisolaran invaders at bay. Earth enjoys unprecedented prosperity due to the infusion of Trisolaran knowledge. With human science advancing daily and the Trisolarians adopting Earth culture, it seems that the two civilizations will soon be able to co-exist peacefully as equals without the terrible threat of mutually assured annihilation. But the peace has also made humanity complacent. Cheng Xin, an aerospace engineer from the early twenty-first century, awakens from hibernation in this new age. She brings with her knowledge of a long-forgotten program dating from the beginning of the Trisolar Crisis, and her very presence may upset the delicate balance between two worlds.
