Ruminations of a Retiree Natarajan 2020-01-21 An essay is a piece of non-fiction writing that discusses a specific topic in depth but with brevity. After the time of Montaigne of France and Francis Bacon of England, who were the pioneers and guides in essay writing, the subjects and form of essays have ramified (17 types). Now, essays are an integral part of the language curriculum in schools. In the segment of non-fiction, the essays are a genre in themselves. Present-day essays need to be short but loaded with information on the topic covered. In this volume in your hand, the author has attempted to cover topics of common interest to inquisitive readers at large, from every walk of the society. These essays are humorous, emotive, informative and instructive too. They are encapsulated chronicles of the past and present. The reader may randomly pick up any page to browse through; the narratives which are, in length, sized down to your span of attention, are sure to keep you more informed.
