The Influence of Wordprocessing on the Attitudes and Writing of Postsecondary Students Anthony Tilly 1988 In order to assess the effects of wordprocessing on the writing of first-year students in a college of applied arts and technology, a project at Seneca College of Applied Arts and Technology in Ontario, Canada followed a large population of students as they entered college, were taught to use wordprocessing in their writing, and used it throughout their first academic year. The study draws a profile of the writing background, attitudes, and skills held by the 650 participating students, and documents changes in these aspects over the study period. The report is in two parts. Part 1 (Chapters 1-4) is a summary report; it contains an introduction, outlines purpose, context, method, and conclusions, and reviews findings (which suggest that a broad range of students (1) enjoyed using the wordprocessor, (2) voluntarily used wordprocessing in their own writing apart from college-required writing, (3) saw wordprocessing as a valuable employment skill, and (4) saw wordprocessing as a contribution to their writing). Part 2 (Chapters 5-10) offers detailed information on the literature, methodology, interviews with students, statistical and anecdotal findings, and the writing of the students. (Thirty-nine references; and appendixes which present the survey instrument, interview questions, and writing sample instructions are attached. An annotated bibliography concludes the report.) (SR)

Libraries and Information Services Towards the Attainment of the UN Millennium Development Goals Benson Njobvu 2008 The United Nations Millennium declarations of 2002 set eight Millennium Development Goals (MDGs) to be achieved by 2015. The high poverty levels in most African countries make many aware that it is no longer up to the governments alone to find ways of abetting it, but that other organizations need to join the fight. Libraries are well placed to contribute to the development process in supporting it by providing relevant, up to date and reliable information. The papers presented in this publication address the question how African libraries and information professionals seek to make themselves relevant to national development. All of them focus on how libraries and information centres could contribute to the attainment of these MDGs. The papers are a selection of the proceedings of the Eighteenth Standing Conference of East, Central and Southern Africa Library and Information Associations (SCECSAL) held in Lusaka, Zambia, from 15th - 18th July 2008.

The Newspaper Leonard Mogel 2000 This resource from Leonard Mogel serves as a primer for those interested in pursuing a career in the newspaper business. It discusses the medium as it exists today and how it is meeting competition from the other deliverers of news. The book provides fundamentals on the types of existing newspapers, from the big U.S. dailies to the community weeklies; job opportunities, including tips for job hunters; newspaper operations and production; newspaper display and classified advertising; and newspaper marketing and promotion. Also included are special sections and chapters discussing journalism school and program attributes, Sunday magazines and comics, and the internal operations of the Associated Press and other news-gathering services.

Educational Measurement Robert L. Linn 1993 A comprehensive standard reference on the theory and principles of testing, this edition was originally published by ACE/Macmillan in 1989 (revising and updating

the second edition of 1971). The volume is divided into three sections covering theory and general principles, administration and scoring, and applications. Discussed in detail is how computer technology can be the primary tool for successfully integrating testing with instruction. Each of the 18 in-depth articles is followed by an extensive bibliography of references. Annotation copyright by Book News, Inc., Portland, OR

Teaching Students With Special Needs in Inclusive Classrooms Diane P. Bryant 2019-03-05 Inspire and equip current and future classroom teachers to ADAPT to the needs of all students. Teaching Students with Special Needs in Inclusive Classrooms uses the research-validated ADAPT framework (Ask, Determine, Analyze, Propose, Test) to help teachers determine how, when, and with whom to use proven academic and behavioral interventions to obtain the best outcomes for students with disabilities. Through clear language and practical examples, authors Diane P. Bryant, Brian R. Bryant, and Deborah D. Smith show how to create truly inclusive classrooms through evidence-based practices and hands-on strategies. The Second Edition includes strategically reorganized chapters, a new chapter devoted to differentiated instruction, and new classroom footage and teacher interviews illustrating how readers can implement the strategies discussed in their own classrooms. With the help of this supportive guide, educators will be inspired to teach students with disabilities in inclusive settings and be properly equipped to do so effectively.
